The one word that describes 104Y is fancy; with a father like HF Tiger 5T, one of the best bulls I have ever seen. 104Y is out of the Justamere 601K cow that never misses. This will be her 4th calf to go to CWA. 601K has tremendous length and puts every thing into her calf. 104Y weighted 650 lbs on Sept 15/11 without creep. We are very proud to offer this heifer in this years Masterpeice Sale. Quiet, easy to handle fantastic hair coat, long deep side and did I mention fancy. She will fit into any herd with a flare.

This year has been very exciting year for us as it is the first calf crop for our new herdsire MJ Escalade 2W. Our consignment this year is a feminine daughter of Escalade himself. This heifer is a very powerful individual with a strong top, loads of length and a clean front end. Her damn has been a very consistent cow in our herd. A daughter of the now deceased Quantum 86P, a bull who has left an excellent set of females for Northern View Angus and Bell Angus, is a cow that produces year after year for us. The Escalade progeny have really stood out amongst this year's calves. They possess bone, hair, style, explosive growth and great maternal upside. I believe that this heifer will go on to be successful in the show ring and most importantly, become a great cow. Don't miss this opportunity to acquire the first Escalade.

Here is the result of a Masterpiece Graduate. We purchased these embryos from Eastondale Angus and this calf is the result of 2 of the leading Angus Animals in our Country. GDAR Forever Lady 9136 sold thru this very ring to Johnson Livestock for \$13,000 and before that sold to Eastondale Angus for \$20,000 from Dryland Angus. She is the sire of Many breed leading animals across the land; Dryland Iceberg 231, Eastondale Break Away 32'07, Eastondale all The Way11'08, Eastondale Money Maker 23'09 and many daughters that have been retained by Eastondale & Johnson Livestock. Her sire is the Famous, HF Tiger 5T who is the \$52,000 1/2 Interest Bull for Ring Creek Farms. He was the Supreme Champion in 2009 wherever he attended. A mating that has produced us 301Y, a fancy front pasture type female that will have marketability written all over her with her great background and future in the industry. **J&S Cattle Co. & Triple L Livestock would like to retain a future flush at their expense and the buyer's convenience.**

HF Evening Tinge 57R progeny have exceeded our expectations everytime and there is no doubt she will continue to do so. Each year we have owned her, 57R daughters have been our high selling females including the popular JL Evening Tinge 8001. 8001 went on to win 2009 Ontario Show Female of the Year, and is the dam of GF Evening Tinge 1X. 1X, owned with Gilchrist Farms and Ken Mac Angus, won Supreme Female at Rockton World Fair, Heifer Calf Champion and Reserve Grand Champion Female at the Toronto Royal. Then 1X goes on to be declared Winter Heifer Calf Champion at NWSS and this summer she was the Grand Champion Angus female at the Nebraska State Fair for J6 Farms. JL Evening Tinge 8001 next calf, a bull named Transformer, owned by R&R Angus, Bob May and Pembroke Cattle, recently sold for \$29,500. Seven direct sons of HF Evening Tinge 57R have also sold for an average of \$7,200.

"Fancy" is a name well suited to this heifer. She is out of the largest and most consistent cow family here at JLL. Her sire, Red T-K Big Deal 98U did a tremendous job for us, siring our most powerful & consistent set of calves to date. He sired 21 calves this spring and 12 of them will be at Agribition this fall. His bred heifers are shaping up to be powerful brood cows with tremendous feet and udders. He was purchased from T Bar K Ranch, Kevin & Kim Dorrance. Big Deal was lost this summer, so limited females will be sold. This heifer is naturally quite and would be an excellent show heifer for a junior of any age. We believe she also has the ability to go on and become a top producing, front pasture cow.

A flush mate to the Lot 108 Herdsire from Minburn Angus, Copenhagen 3Y. 2Y will also have a lot of friend's sale time. Her dam Minburn May 112M is a fantastic cow that traces back to the great Crescent Creek Main Event 6H, a Foundation sire of the Minburn Herd. His daughters at Minburn are untouchable as they are his best. Her granddam, Minburn May 90G was the dam of the \$21,000 Red Minburn Windy 5178 Herdsire that sold to KBJ Round Farms in the 2005 Masterpiece Sale. He in turn went to D-Bar Red Angus in the KBJ Reduction Sale at \$7,500 in 2008. On the top side, 2Y is out of Red RMJ Redman 1T, a sire that has done a lot of good things in his young career already. He is a calving ease sire that produces progeny with great muscle shape, structure and eye appeal. (Almost forgot Marketability). These 2 outcross pedigrees combined gives us Minburn May 2Y, a treasure for the future!

"Jessie" as we call her has had that effortless profile show appeal from birth. Deep, even bodied with that heads up presence. She has a pedigree packed full of genetic power which has fantastic performance, super maternal instincts, impressive style and high functionality. 74Y had a maternal brother in this spring's Blue Collar Bull Sale sell to the PFRA. He is a fantastic bull, smooth, angular with power. His picture is below. Jestress 71T has produced well with her first three calves. She has a good tight udder. These 70M daughters have been very good producers in our herd. Their calves carry the style and performance of their show sire, Elixir 70M. BC Matrix 4132 was a sire we had used two years ago and really like the style, shape, performance and structure of his calves. His performance numbers are huge at weaning and yearling weights but have that unique combination of calving ease. We went back to him last year for these reasons and to provide different genetics to many of the current trends in the breed. I am confident that this female will make an eye appealing functional cow you will want in your front pasture. If you examine her pedigree and performance data you will see that she would make a good heifer to invest in.

In the spring of 2010 we were in need of a new herd sire. Our search took us to Bone Creek where we found Blackman 8311U. He was the most structurally sound, deep bodied, thick and eye appealingly bull we could find. His picture shows how appealing he is. We wanted a bull that could compliment our cow herd and provide some different and unique genetics for us. The mating of 8311U to our cows has produced thick, deep, stylish calves. Pride 8Y is from Blackman 8311U's first crop of calves. She is an attractive heifer. We really appreciate this heifer's femininity, structure and genetic uniqueness. She is a very well muscle patterned heifer. Her temperament would make her an ideal candidate for a 4-H project. Not only would she be a good show female but then turn into a great producer. A unique heifer with a unique pedigree that I am sure you will appreciate.

This is one sweet made little lady! The eye appeal here is second to none! She is very structurally correct. Marta 42Y should probably be wearing a halter for some enthusiastic young individual. She would certainly look the part! Her Mulberry dam has that same great eye appeal, nice big spring of rib and very structurally correct as well. Her Grandam is designated CAA elite dam. Her sire Smack has done a great job of moderating birth weight while maintaining good growth and structural correctness. Smack made the trip to Calgary to compete in the Forum and got along pretty well too! Marta 42Y is the right kind to add to the herd. She will be easy doing and has a very maternal background.

Young Dale Blackbird 8Y is a beautiful Young Dale Panarama 66T daughter that is sure to make a front pasture cow in her future. The disposition of this heifer is AWESOME!! Blackbird would be an excellent choice for any 4-H or Junior Project. Her dam Young Dale Blackbird 1S is very maternal with a great udder giving lots of milk and always calving in the first group. Do not overlook this great opportunity.

Guaranteeing - A Successful flush of 6 quality eggs to the sire of your choice at the purchaser's expense or any of the Young Dale Angus Herdsires.

We are offering a successful flush on one of the very best Angus cows ever raised at Young Dale Angus. Her pedigree combines Beartooth Peg 558J with Pat Lady Sandra 2C. Pat Lady Sandra 2C produced more high dollar progeny for us than any other cow! Her sons, Monarch 35G, Gabriel 7L, Touchdown 36M and Kong 19M. Young Dale Kong 19M sired by WK Gunsmoke has left replica daughters of Pat Lady Sandra 2C in our herd. When you analyze the phenotype of Peg 77P, you will see she has a great front end with great neck extension and a smooth shoulder. She has great width of base followed by a big square hip, wide pin bone setting, great quarter and for a 7 year old, Wow what an udder. Peg 77P has a heifer calf at side this year by the legendary Young Dale Hogan 3Y that is sure to catch your eye this fall. Peg 77P is the kind that one could build and preserve an Angus Empire.
