We are extremely excited to supply the fundraiser heifer this year! She is a sweet made heifer with tons of potential for any junior or 4-H project, or just a sweet little female to add a little extra to your heard. This heifer's sire, Spruce View Overdrive 153X came out of the Spruce View Angus Herd that Wayne and Dallas Grant run up at Killam, AB. The Dam is a TC Aberdeen Female, giving her a ton of potential for anyone starting a herd or for any established herd.

## Fundraiser Heifer Auction Procedure

1. The final bid in each round will denote the amount of that bidder's donation.  
e.g. Round 1 - Final Bid is \$300.00 to Randy Mitchell. Randy's donation is \$300.00. Round 2 - Final bid is \$250.00 to Tom Jones. Tom's donation is \$250.00. Round 3 - The female is re-auctioned on a downward scale until no further bids are received at the low of \$10.00.
2. Each \$10 purchased (donated) represents once chance in the final draw.  
e.g. Randy Mitchell has 30 chances. Tom Jones has 25 chances and so on down the scale to the final \$10 donation worth one chance each.
3. One ticket for every \$10 donated, bearing the contributor's name will be put into a draw barrel.
4. At the end of the sale, one ticket will be drawn, with the person winning the heifer.

## Welcome to the 34th Annual Northern Select Angus Sale

Once again OBI is honored to be working with the Northern Alberta Angus Club to host the 34th Annual Northern Select Sale. The numerous purchases over the years by many a folks have definitely paid dividends as you will see in some of the footnotes in this catalog. The cattle here offered simply work for their new owners from day one and never look back.

Bob and I were to all farms and saw the front pasture cattle from over 20 farms this year. We were very impressed with what the consignors let us select from. This year we have a few more heifer claves for our Juniors to evaluate. Remember the great offer from the Northern Club of 10% off for Juniors. Also a huge thank you again to Bar Heart Angus for the 2012 Fundraiser heifer.

The 2012 year has been very good to most cattleman, the harvest went well, so please do come to Camrose on November 17 to evaluate great Northern Alberta Genetics at its finest. OBI knows all of these animals very well and the consignors that have brought them to town, so if we can help you in anyway with questions, purchases, please fell free to call us.

See you Nov 17 at Camrose!  
Rob Holowaychuk, OBI

This heifer is a must see! She has a ton of potential with her thick body, beautiful hair coat and sweet disposition. Her mother is a great Cow with a beautiful udder, and kicks calves out like this year after year. This heifer will give you production, quality, and will stay in your heard for several years to come.

Greetings from the "Stachniak's" We have been in the purebred business for 8 years now and have been working hard to improve our cow herd through breeding and purchases at Dispersal and Select Sales. Terry & Nellie started their purebred herd by purchasing 3 cows at the Northern Select Sale 2004. This is our first year of participating as sellers and we have brought 3 quality heifer calves. Thank you for allowing us to be part of the sale and thank you for considering our heifers. 55Z's dam was purchased at the Mountain View Dispersal Sale. She has a great udder, milk and is constantly mothering her calf. 55Z's granddam, Ellen 26N was a donor cow at Mountain View. Good influence from KMK Alliance and on the sire's side the Master Bull who produced so many great offspring for Justamere.

11Z is a deep and stout heifer that we believe will go on to become a solid producer just as her dam and granddam have become in our herd. Strong influence from the Dryland Alliance bull that has done so well at Everblack and the Main Event bull who has done well at Minburn. Pioneer on the sire side rounds out this heifer's genetics.

49Z's dam was purchased from Brian Edwards at the Valleyhills Angus Dispersal. The Blackcap cow family was a mainstay at Valleyhills. OCC Glory is this heifer's grandsire; his heifers have proven udder quality, mothering ability and added longevity. OCC Glory's granddam produced to 22 years of age. SAV Pioneer 7301 on the sire side with a cross by Georgian Wye. She weighed 600 lbs on Sept 12.

I said last year that I would not be selling any more Crimson Daughters, but of course things tended to prove otherwise and here she is !33y carries that same depth and volume of BCC 102U. You might also consider some of the great cow building families in her pedigree- Barney and Indeed, to name a few. This heifer has great potential to add value to your herd. An interesting twist to this already amazing picture is her service sire - NLT 59X, a bull who adds performance without sacrificing calving ease.

It begins years earlier, and our first offering of one of our latest sire lines - Big Rock 105X, purchased at Brylor Ranch is here. Talk about style and eye appeal with a "Rock" solid pedigree. The dam NLT 60U has done another tremendous job in producing and raising this heifer. Her last sale offering in the Northern was NLT 38X, Sold to Lucky 7 Cattle Co. 2 years ago and they were very pleased with the job she was doing in their operation. With loads of volume, length, and massive hip which is needed for makings of an excellent brood cow, 11Z can only add to your herd too.

A daughter by Sydgen C C & 7, Rosebud 9Z's dam is a two year Density daughter. A very balanced thick female, 9Z catches one's eye with her proud carriage and alertness. With her pedigree is packed with sires that leave outstanding females - Density, Scotchman and Fortune 2000, the probability of her being a productive female.
