Last fall, we took advantage of the dispersal of the famed Willabar herd to purchase a new cow family. The Countess Cow family was selected and our only regard was that we did not purchase more. Countess 20Z is a direct daughter of the breed great SAV Final Answer 0035 out of a Really Windy daughter. Her EPD profile is off the charts, top 10% for birth weight and top 25 percent for yearling weight. Final Answer females are just commencing to make their mark in the breed.

## CAJUN TJND EBA 26Z

Triple J Design of Foxcross was selected as an outcross sire that provided ease of calving for first calf heifers. But what dividends this selection provided! His calves are light birth weight but grow and have tremendous eye appeal – thick with great butt and good feet and legs. A couple of the most popular bulls in the bull pen this spring were Triple J sons out of first calf heifers. Following the growth and phenotype pattern of her siblings, EBA26Z will be welcome addition to any herd.

Another Triple J Design female out of an outstanding Boyd On Target / EXT female, Ellen 27Z promises to be a female who will leave eye appealing thick sons and productive feminine females. Ellen 27Z will be a moderate framed female with tremendous capacity and body length whose pedigree indicates that she will be productive female.

Sired by the Denver National Champion, Red Northline Trueblood 341T out of a daughter of Red Six Mile Saker 832S, Sierra 5Z is an interesting genetic package as her granddam is a black cow whose sire is a son of FAR Kruggerand 410H. If you are searching for moderate birth weights and impressive growth with an eye appealing phenotype, 5Z will be hard to bypass. Her EPD profile is impressive.

**SERVICE: BRED SAFE TO RED CINDER CASANOVA 155X.  
DUE EARLY APRIL 2013.**

Christy is a real eye catching female that is a deep, broody cow. She is great dispositioned cow that was purchased from Sharon Waggoner's dispersal sale. Her sire, Red Mem Prince 208H, is still sought after for his female producing qualities and are becoming harder to come by as time pushes on. She is a female with a unique pedigree and has carried on her exceptional production for both Sharon and Cinder. Christy is bred for an early April baby to Red Cinder Casanova 155X, a grandson of our performance giant, Red Cinder Smartin' Up 132P and our matriarch Freyja cow family.

If you are looking for a female to put in your replacement pen, then look no further. Freyja is a moderate female that is smooth throughout and carries lots of capacity. Her sire, Red Cinder In Focus 112W, will rival any bull for being long and smooth and still packs "the punch". He has left Darryl Papuschak and ourselves some exceptional replacement females to build from. 129Z is a "cookie cutter" female that will make an excellent addition to any herd.

This is a female that we could write a novel of family tree credentials about. Her sire, Red Cinder Gonna Be Famous 55W, comes from our prominent Freyja cow family that has produced many influential females for us. Her dam is a little known, full sister to our prominent female sired by Sam's Prospector, and out of our extraordinary donor cow, Red Howe Ms Heather DDH 101G, 301Z's pedigree alone makes her particularly desirable to retain. She is a very feminine made female with explosive rib capacity and volume. Here's another showy heifer from our pen that has the "can't miss" herd building qualities that you're looking for.

Here is a heifer calf that has intrigue written all over her. Not only is she a superbly made female, but her pedigree is as interesting as they come. Her syndicated sire, Red Lone Stone Pursuit 81W, was a yearling bull that we exhibited with great success in Denver and at many other shows including 2010 Reserve Grand Champion Bull at Agribition and Olds Fall Classic. Rosie's maternal side is equally as powerful, her dam is a Quaker Hill Objective and her grand dam is a coveted Coneally Kincaid female who has more than earned her keep with us. Don't miss the opportunity to appraise this one, she is showy with a boat load of performance built into her pedigree.....and imagine if she had you a red calf!

**SERVICE: EXPOSED FROM APRIL 1 TO JUNE 1 TO 20/20 TANK 2Y.  
 OBSERVED BRED APRIL 13.**

Here folks is a female that is a proven producer that I really do not want to part with but College fees are saying otherwise. As my 4-H project, Tiptop had a very successful show career, both as a yearling and cow/calf pair. This young cow has a great temperament with excellent mothering capabilities and is just coming into her prime. The Lookout Scout, Free Lancer and Tiptop 11Z genetics make for one explosive female. Her only daughter has been retained in my herd. 9U's service sire 20/20 Tank 2Y is a moderate framed bull who is a real tank with loads of natural muscling and thickness. We are anxiously awaiting his first calf crop and we are certain the Tank/Tiptop genetics will make for one awesome offspring.

Believe it or not, but our heifer calf entries this year are out of the same Mamas as last year. The Matrix maternal strengths are very apparent in this top-end heifer. She exhibits length, thickness and excellent udder development all packed in one sweet package. Her maternal sister sold in the 2011 Northern sale to Gus Garnier for \$2900. This 2012 Model is sure to be as good if not better. Be sure to stop by and check her out.

9Z is a very stylish female who will definitely catch your eye on November 17th. This fancy lady has show heifer written all over her! We are very pleased with our Entourage calves this year. They are very quiet, easy doing, thick and have great hair coats. 9Z'S maternal sister was selected in last year's sale by Clay Duffy of Lacombe at the top-end of a powerful group of calves. Have a good look at this one, Juniors!

30Z is a nice fancy heifer that could easily be put in a show ring. She is out of a bull we raised ourselves which has one of our best set of calves this year; ask Rob he was impressed when he seen them .The grandsire was a bull we purchased from Six Mile where he was the high selling black bull that day. The dam 142X is out of SAR Fort Rock151R; Embryo's that we purchased from our good friends at Brandl Cattle Company. If you are looking for a junior prospect with a proven pedigree, 30z would fit the bill.

38Z is a Paternal Sister to 30Z, out of our Domination bull that we own with Cary Ford. The dam of Domination is a Dutch daughter; that is out of our Zara Cow Family that goes back to one of our first Angus ever owned, Double Tee Bar Zara 14R. You don't keep cow families that long if they don't work for you .We just flushed 38Z's great grandam this year, 94K and can't wait to get the calves from her. The dam is also a first calver out of the Tradition bull we bought from Sooline. Another heifer that would work well on a halter but which one to choose 30Z or 38Z; we will leave that up for you to decide.

39Z's dam is a full sister to Dwajo Gladiator 32L who does make tremendous females. She has already proven that having sold two daughters to the good people at Lonestone Farms and Wildcat Creek. Her sire Armageddon was the lead off bull at Anchor 1 Sale where he drew a lot of attention. His dam we saw at the Tour this summer and she has tons of volume and a great udder. This is one of the first progeny to sell out of him so want to get some new genetics mixed with some proven old, this dark red, stout, deep sided heifer is one to look at.
