This is a heifer that has clean lines with a real well structured moderate size to her with some depth and width that make her a real nice package. With one nice little bow on top her sire comes from the Kodiak family. Mistical 548W is a bull that came out of the Thistle Ridge Bull Sale where he was high selling bull that day. The dam I purchased from Redrich's as a calf at the Northern Sale. She is moderate, deep sided and a real nice udder. Looking for a different twist in pedigree, Rosette would be the answer a real nice Junior prospect.

SERVICE: EXPOSED FROM APRIL 24 TO JULY 9 TO RED TER-RON FREEMONT 34Y. FAVORABLE FOR AN EARLY MAY SERVICE.

What a rare opportunity to purchase a direct daughter of the great and complete outcross sire Wildcard. Wildcard was a great addition to the Red Angus breed for his complete outcross bloodlines and was unfortunately lost way too early. Although he was unfortunately lost early his progeny have had a major impact on the breed, with great such as Jokers Wild, Momentum, Hustler, just to name a few. 951S is a female that is hard to let go of, but with daughters in herd makes it a little easier. She has a tremendous udder with great teat placement, as well as a massive hip. Lana is bred to a Real Deal son that we are very excited about. The combination of Real Deal and Wildcard will be great and rare; I am excited to see how this coupon will turn out. Be sure not to miss this moderate, exciting cow that will be an asset to any herd.

SERVICE: A.I. ON APRIL 25 TO RED DMM GLESBAR BARNDANCE 35X. FAVORABLE TO A.I. DATE. EXPOSED FROM APRIL 29 TO JULY 24 TO RED GOAD TEQUILA 101'10.

These ¾ sisters both go back to our Canadian bull that has done a lot of great things for our herd. All of his females are great mothers; they put their heart and soul into their calves and still maintain themselves well doing so. All Canadian females drop tremendous udder with correct teat placement. We feel that both these females will carry this great trait from Canadian. The sire of 120Y was a feature sire at the Tip The Scale Bull Sale and sold to Broken Saw Farms in Smithers, BC. We were very privileged to use Molson before he went to his new home. The sire of 120Z is a Canadian son that we kept to use in our herd, once we lost Canadian we wanted to keep a breeding son in herd to carry on his great attributes. The dam 5W was a previous graduate of the Northern select sale that we selected from Dwajo Angus; she has developed into a great young cow. 120Y has been AI'ed to Barndance 35X a great young bull that we are very excited about. He was the Reserve Champion Red Angus Bull at Farmfair and Agribition last year. He has an exciting pedigree that offers a new twist to all Red Angus blood lines.

WOW what can one say when they have Indeed 104H, Mulberry 26P, and New Trend 22D all in one package, this is a combination that many would dream of. We feel that this one will be a tremendous mother cow with all these bloodlines. 100Z is a very angular type female with a huge middle to her. She has been entered in Stockade Round Up in Lloydminster. The sire of 100Z was purchased from the Tip the Scale bull sale for being a direct son of Smokin Jo 810S for the tremendous female producer that he has become for Vikse Family Farm. The dam is a Canadian female that once again has a great udder, we feel that 100Z will have this great udder structure as well and will develop into a superb producer. Attention to all JR members she has that great show look to her, be sure to take advantage of the Jr. Discount.

Proxy has been a standout heifer calf right from day one. She has been admired by many cattlemen all summer for her length of body, femininity, and her docile personality. The sire of 136Z, Tequila has passed all long his superb genetics to all of his progeny, they all appear to have his great hair coat, length of body, excellent feet, and carry muscling low into their quarters. After our first calf crop of Tequila calves we are very excited to be using him more in our herd. The dam of 136Z was also another graduate of the Northern Select sale that we selected from Redrich Angus; she is a granddaughter of the great Innovator bull that was the sire of the Red Angus show female of the year for Katie Dietrich. 136Z is entered in Stockade Round Up in Lloydminster. She will make a great project for any Jr. Member as she is extremely quiet. We have been told that we could halter break her in the pasture, if we had a halter at the time.

SERVICE: A.I. ON MARCH 31 TO SAV BISMARCK 5682. SAFE TO A.I. DATE. EXPOSED FROM APRIL 22 TO JULY 3 TO ROYAL FINAL ANSWER DRCC 1015Y.

A standout from birth. The Elite donor cow Hartley Eline 4004P purchased from Royal Dunford. Profile, EPDs and Phenotype on the dam's side are supported by the widely used Whitestone Survivor sire. The dam's genetics have produced some of the stoutest calves at both Royal Dunford and Hahn Angus. G A R Predestined ranks # 6 in the breed for \$B, near the highest in Marbling EPD and also ranks in the top one percent for YW EPD. The bull flush mates were the first to sell from the bull pen this spring.

HRH 66Z is a member of none other than the Oxbow Duruba 58E cow family which has produced some of the best red genetics. The 58E cow has produced 27 offspring, designated elite in 2008 with an average ratio of 106. 66Z's dam is one of 58E's offspring and was purchased from J W Cattle Co in the 2010 Northern Select Sale – a purchase I'm extremely happy with. The sire DJE 35X is one of the best muscled red bulls around. His EPDs are outstanding – another outstanding buy from the Dwajo program. This calf has the genetics to lead a program into the future.

58Z is a paternal sister to 66Z. The sire, Dwajo Revolt 35X is attracting a lot of attention at the farm. DJE 35X's first calf crop is proving to be one of the best return on investment that I've made in a long time. He is talking our red program to the next level. 58Z's dam is moderate, has a great foot and temperament. This calf has the definition and makings of the ideal angus cow. A terrific show prospect.
