The maternal side of 22Z is a power puncher. She is a herd building dam. Mostly Canadian pedigreed except for shot of Traveler 416. She is excellent example of how Canadian and American pedigrees work together. 25R is one of Ralph's favorite cows because you can breed her to any sire and get whopping good calf.

As the livestock industry progresses, cattle are becoming more efficient with higher quality carcasses, moderate birthweights and higher weaning and yearling weights. Here is a heifer that is on the leading edge – raise them like her!! 3Z has volume, thickness, great style, and is quickly developing the attributes of a foundation female! Her dam, 356R, produces one of our top offspring every year, with 2 Net Worth sons working in purebred herds – Johner's and Garnier's, as well as a TC Freedom son we kept and used in 2012 on our own cows. 3Z will be a no miss female, sired by the exciting SA V Camaro bull – who goes back to Final Answer with Peacemaker on the bottomside. We look forward to your appraisal of 3Z at the sale.
