Welcome to the 22nd Annual Bone Creek Ranch Bull Sale!

Year 2013 in Review

On behalf of the entire Alexander family at Bone Creek Ranch, I would like to welcome and thank all the buyers, bidders, friends and new acquaintances for the help over the years. A big thanks to Cowtown crew for a very well run sale and the ever welcome smile that meets you at the door. The Cowtown crew, headed by Jim Wilson, Brent Weiss and Wayne Bowyer have years of cattle experience and are very well respected in the industry because of their ability to assess and market good cattle, but most importantly for their respect in the auction market as well as the cattle industry. Talk to them! Rob Holowaychuk and crew are invaluable at marketing and giving ever appreciated advice at selecting new herd sires and direction to the cow herd. Rob will give a candid, honest assessment of the offering, and will spare the sales pitch. You can't find a more honest, more enthusiast cattle breeder anywhere. He has an eye and appreciates good cattle of all breeds. Talk to Rob, his knowledge about breeding bulls is invaluable. Mark Stock and Ben Wright are again working ring. They add a bit of excitement and enthusiasm, not to mention they both are very capable of handling orders and giving an honest assessment of the offering.

A big thank you to Belinda Wagner of the Saskatchewan Livestock Association for all the stress she endures for printing and organizing the catalogue. Thanks to Nate and Rosie for the terrific job in clipping the bulls. Joni takes the pictures, you can't imagine the work and stress to get 100 bulls to stand just right, and cooperate for a photo shoot. This sounds easy, but take my word or ask any family member that helps; this job is hell! The pictures as usual, are great. - Thanks from Dad.

New for 2014:

Well, the most exciting event in 2013 must be the addition of our second grandson, Mason Earle, brother for Aiden Earle. These guys are very precious to us all as well as are all children and grandchildren to everyone. Additions to any family put a new perspective on why we do what we do.

Our focus:

It never changes. Raise honest, productive, trouble free females that do it on their own. We strive for as much performance as possible and will never lose focus of the bottom line. We want optimum, not maximum. Calves that are born unassisted with the will to get up and suck with no supervision is our goal. I am not interested in pushing the envelope back to the days of more performance by sacrificing calving ease, or more supervision. Let's all of us focus on building cow herds that give us more total pounds while spending less time and effort. The number of live calves per hundred cows exposed to bulls will affect your bottom line more then any other economic trait. I'm too old for problems (not interested). We raise our own cattle just like you do. If cattle work on our ranch where we live, they will work anywhere!

The Outlook

Wow! It's finally happened! You can't continue to slaughter more females than males without eventually running extremely low on cow numbers. I'm sorry if I offend the grain guys, but they have overproduced (worldwide) with huge carryover stocks of grain. This happened at an opportune time, when cow numbers are at record lows. Extremely low cattle inventory, cheap feed grain, increased consumer demand (even at these high prices) - is it possible the stars have finally all aligned? One thing is for sure, this upswing will last longer and stronger than any other market surge and it will be fun from here on in to be in the cattle business. The futures are at all-time highs. August yearlings are being contracted for \$1,500 (give or take a few dollars). 500 pound steer calves this fall will be \$1050-\$1150. Yet bred females are cheaper in relative value then ever before in history. Why? Well, the shock has not yet set in, but it will. If you can use more cows, buy them now and you will look like a genius this fall. This cattle cycle will be one hell of a ride. Don't miss the boat as it is time to get on board!

Congratulations to all that endured, it's your turn!
Good luck,
Graham

Remember ribeye at noon, again prepared by Carson and Anne Currah. This dinner is worth the drive.

For internet live viewing and bidding for the sale, go to www.cowtownlivestock.com (phone Wayne Bowyer 306-662-2648 for details).

To view catalogue online, go to www.cattlemanagement.ca and click on Sales (Bone Creek Ranch Angus). Remember customer discounts of 5% off invoice applies to last year's buyers list.

See you March 21st, 2014.

The Future of Bone Creek...

Aiden Earle

Mason Earle

Date: Friday, March 21, 2014 1:30 PM

Location: Cowtown Livestock Exchange - 1 Mile East of Maple Creek, SK

Welcome to the most unique bull sale in Western Canada. Why you ask?! Bone Creek is the only herd that I know of who have feed their steers and heifers, retain ownership and have complete, actual resulting carcass data. This impressive collection of carcass information only assures one that at the end of the day this program is real and second to none. The best of the program... is that you have the opportunity to select bulls from this very herd. The base is a large group of cows managed all alike with soundness and longevity being focused on. Sound, well attached udders are the order of the day.

New genetics are constantly being added through new herd bull purchases. Check them out – KG Smart One 9116 has bred as well as any young sire wherever used. His sons redefine the idea of thick. The Blackedge 24X black Simmental bull could be as impressive as any bull around – he was bought to add performance in the black hybrids and what a job he has done. The Red Angus section is full of quality both cow bulls and some calving ease specialists.

The bull development is a common sense program; back grounded as calves; put on grass to grow in the summer and managed in the fall to express their genetic differences. Where cattle numbers are large, where labor is stretched and days are not long enough, you can rest assured that the weak, the poor and unsound cattle will not make the reproduction line. Bone Creek is exactly this.

Many times I have said that cattle are very similar to their owners... and we all know this family; the relentless work ethic, the determination and the strength of character demonstrated by all.

Repeat buyers are the backbone and new buyers are the limbs being formed. Give your program a chance to experience a Bone Creek bull; strong, uniform calf crops with few issues in the breeding pasture.

Consider this your invitation to the Bone Creek Bull Sale held at the Maple Creek historic Auction Mart. We would certainly appreciate your attendance sale day, but if you are unable to attend, please do not hesitate to call Graham or Joni about the bulls or contact any of the sales staff.

Thanks for all the past buyers who have trusted OBI to purchase bulls for them. We look forward to visiting and helping with your selections again.

See you Sale Day,
Rob Holowaychuk, OBI

DELIVERY

Free delivery to central points within 150 miles immediately following sale between March 22 and March 31 – delivery beyond at cost of fuel. Free delivery only applies to purchases over \$2,000. Purchases below \$2,000 at cost of fuel. Bulls left to be cared for must be insured and a \$2.00/head/day charge will apply after April 1st.

**Take your purchase home sale day and receive
\$50 off each bull.**

BULL GUARANTEE – NO HASSLES!

All bulls have undergone a complete semen and reproductive examination. They sell as guaranteed breeders. In accordance with the CAA breeders

guarantee. Freight on the replacement bull is the responsibility of the buyer. All bulls returned to Bone Creek Ranch for credit must be in good condition. We recommend the buyer consider buying insurance on their purchase. All warranty and responsibility is limited to replacement of the bull in question and is acknowledged by the buyer as a condition of sale and in no way warrants loss of calf crops. Physical injuries and mis-management are the sole responsibility of the buyer. ALL BULLS RETURNING TO BONE CREEK RANCH for care after the sale must be insured.

**STANDARD TERMS & CONDITIONS OF THE
CANADIAN ANGUS ASSOCIATION APPLY**

PERFORMANCE INFORMATION

AOD - Age of Dam
CE - Calving Ease- U- unassisted - E- easy pull (by hand)
- H- hard pull (calf puller)
* - recommended for cows
** - moderate calving ease- large framed heifers or cows (1250 PLUS)
*** - exceptional calving ease- small to medium frame heifers (1100 LBS)
BWT - Actual birth weight

A.D.J. - Adjusted weaning weight (205)
Wn. Weight - Br. Weight = Pre-Wn. Gain / Age in days x 205 +
Br. Weight = 205 Day Adj Wt
Test ADG - Test average daily gain
SC - Actual scrotal measurement
SC/P/H - Scurred, polled or horned
WDA - Weight per Day of Age

2375Z is a very moderate framed bull with tons of thickness. He has good feet and is off a very promising young cow. This is 9293's second calf (her first was a bull in the sale last year with similar traits). She is also moderate framed with good feet and good udder. The sire, Lone Stone Pursuit 81W has sired 6 bulls in the sale this year. He has proven himself in the show ring and with his progeny at Denver. Silver Spur owns the U.S. semen rights on 81W and took Champion Pen of 3 heifer calves and 3 bull calves at the Denver stock show in 2013. 81W progeny will grow into large frame bulls that will add overall dimension to their calves.

Another 81W son that is off old 0135 - one of the favorites around here. She is a small framed cow that is built like a tank! Her udder is even with excellent teat size. She is still here at 14 years old and looks great! She has been a great producer over the years and we currently have 5 daughters in the herd that are all beautifully uddered and functional cows.

2237Z is one of two sons on offer to our home raised herd bull, 8067. This bull had a top cut of sons in last year's sale. He throws more frame into his calves. Unfortunately, last fall he went missing in action at the land at Morse so his progeny will soon be discontinued. Dam 8138 is a medium framed cow with darker features and is a good all around cow. She has a daughter who is the Dam to Lot 26 - excellent uddered and moderately framed. 2237's Grand Dam, 1143 mothered the high selling bull in 2011 to KBJ Angus.

Dam 6054 is off one of my favorite cows 3210. Both 3210 and 6054 are dark red cows that have produced very well during their time in the herd. They go back to old 886, who was also one of my favorites because she frequently had twins and always caught the next year. She was one of those cows that stuck around until old age got to her. What a great cow family!

2293Z is the other 8067 son on offer this year. He was born a twin to a heifer calf so unfortunately she didn't stick around, which is a shame because the Dam 7200 is a very good uddered, large frame cow that is very functional.

This is Dam 5182's 3rd sale bull and a good one at that! Another good cow family that is moderate framed and consistent with quality udders, overall structure and feet. Dam 5182 also has a daughter who mothered a bull in the sale this year (Lot 21). Sire 9188, has turned out very well. His progeny are very well structured, quality cattle with small birth weight. Oh, and his mother turns out to be 3210 (one of my favorites as mentioned in Lot 5)!

RED ANGUS/SIMMENTAL HYBRIDS

Hybrids

The hybrid bulls need no introduction. They produce progeny with a little more performance, muscle mass and weaning weight without adding birth problems. Our hybrids are proven over 20 years to produce like Angus with adding Hybrid vigor (the only thing free in the cattle business).

2115Z has been a star since day 1! Wow, he is quite the bull! Check out the quarter and thickness in this guy. He is sired by a Redge son, purchased from Westway's up at Olds. We are extremely happy with what the sire, 24X puts into his calves. Growth, thickness and some frame for those moderate framed cows. His calves are very clean in the front end and he adds pounds! Keep your eyes open for the other 7 sons in the sale! Dam, 7201 is beginning to earn her way into being a favorite around here! She mothered the high seller in 2012 to Baker's Red Angus (Stu McIntyre) from Whitewood and has another top end bull calf in the pen for next year!

Another outstanding son off of our Westway bull, 24X! This bull, 111Z, is off a very sound, very moderate Red Angus mother and look at him! This is a perfect example of what 24X adds - growth, muscle, and thickness! This bull will cover a lot of ground, but if he is given space and not crowded, he will be fine. He needs to go into a ranch environment.

This year we have a new blood line in the black bulls. Smart One 9116W, a Wisdom son, was purchased from KG Ranch, Montana. He was the top selling bull of the sale and has produced phenomenal progeny. 9116W is one of those rare bulls who out breeds himself. Both the females and males are outstanding in structure, easy fleshing, and easy calving. We Al'd him to heifers and he was also turned out with cows so that explains why there are 23 sons in the sale - a very uniform group of bulls. A few of them stand out in particular - 2069Z is one of them. 2069Z is a Smart One crossed with a first calf Blackman daughter. We like him and the next 3 Lots so much that we are selling Lot 52 and 54 choice (highest bidder picks one, we keep the other), and Lot 53 and 55 choice. These 4 bulls, in our opinion, are definite herd bull prospects with the exception of Lot 54, who is unable to be papered. We would use all of these bulls on our purebred cows and heifers. Their moderate birth, good growth, excellent feet, tremendous muscle shape, and meat down through their stifle make them near flawless.

9006

TGA MISS GRANDEUR 3061N

HERD BULL!

54

2196Z is out of a very functional, moderately framed cow. His Grand Dam, 3061 (Sitz Alliance 6595), is a very good cow with excellent feet and udder. Dam, 9006, is also very sound. She has no papers due to a bull breakout and failure to find a DNA match (not all the herd sires were DNA'd at that time). Unfortunately, there will be no papers available on 2196Z but don't sell him short because of that!

HERD BULL!

55

Stand behind 2405Z and look at the hip and quarter this bull is packing. His width is unbelievable. Out of a Blackman daughter, this bull has a lot of promise in both his daughters and sons. Definitely a herd bull if I've ever seen one. Consider 2405Z's age and performance, tremendous muscle shape - does this bull have any flaws?

The dam to 2171Z has produced many progeny that have been top quality animals. She has a beautiful udder and hasn't changed since she was 2! This credit is due to the Grand Dam, 0058, whose udder was picture perfect. EXT is behind 0058 - possibly the most influential black female producer of the entire breed. The daughters on this bull will be exceptional!

2077Z is one of a kind. Off a first calf heifer, 2077 has exceeded this year for thickness and pounds. He has a big foot under him, not to mention the correctness of his feet are admirable. Unfortunately, when we clipped his head, we found scurs. But scurs or not, this bull still shows herd bull material and is almost the spitting image of the old grandsire, Prophecy 4P (Dam's side)! 2077Z, in our opinion, is as good a herd bull as we have seen. The breeders would be on this bull, but for only scurs. Don't be caught snoozing. The cows won't mind. Can you imagine feeding a set of steers that looked like 2077? (mind boggling)

**HERD BULL!****62**

2449Z is herd bull material! Born June 6th and in the top weight break in this year's bull selection. Another Smart One son whose structure and overall look is what we are striving for. This bull does need to be handled with care, but since he has been worked with a little (clipping and picturing), his comfort level has improved greatly. Don't sell him short - he is flat awesome! 2449 is one of Dad's favorites! (But what does he know, ha!)

Another one of Curtis' bulls that have turned out to be more than average. The old Dam, K22, was bought for Curtis in the HollBrook dispersal and has proved herself here at Bone Creek by a long shot! K22 is starting to show her age at 14 years old, but her feet and udder are still awesome! She has produced 3 very good quality sale bulls in her time here - don't overlook this one!

Dam, 1056 has been a good, no trouble cow at Bone Creek over the years. She was here until 12 years old before she turned up dry (not bad!). She has produced many bulls over the years, including the herd sire Blackman 8072U, who has two fabulous bulls in the sale this year (Lots 78 and 79). The type in these bulls are similar to 8072 - outstanding! This is 1056's last calf so don't wait! The 8072 daughters are flat awesome, angular, feminine, good uddered (Blackman Progeny).

**78**

No papers are available on 2362Z, but look at the type and quality of this bull! Lot 78 and 79 are spitting images of their sire, 8072. Smooth, packed full of muscle, easy moving bulls with nice heads on them. The sire, 8072 died last winter of a twisted gut so there will not be any more natural calves off 8072. AI will then be the only option - we have a good semen bank.

The Dam, 113T, is a diamond in the rough. She is a good uddered, good footed, zero trouble cow that always produces a good one! This is her 3rd sale bull. They have always been in the top cut of the hybrid bulls. This one is no different! I would buy him just because of the cow. Terrific producer.

5003 was one of the favorites on the ranch. This purebred Red Angus cow was a gem. This is her last calf though, because a calving wreck last year with twins crippled her pelvis and she had to be sold. She had such a look about her. She was one that stood out in the crowd; easy fleshing, feminine, beautiful struck, feet and udder. It seems like wrecks happen to the best of them! Don't overlook this bull as he will throw top quality females.
