ETHERINGTON FARMS

LOTS 65 - 10 COMMERCIAL HEIFERS

Gary Etherington (780) 872-0148

It is with great pleasure to be working with the Family Affair Sale Group in this the 1st Annual Bull & Female Sale.

The consignors: Black Hills Angus/Bidwell Farms, Family Ties Angus, Selte Cattle Co., and Goad Family Angus approached OBI with an idea last fall and we finally got a date and the group made the decision that this was the right thing to do and we agreed with them. The inaugural sale always creates excitement in the area with neighbors, purebred buddies and cattlemen to see what these 4 consignors will bring to town. So please do check this sale out this year.

The bull offering from the consignors include sires bloodlines like Pioneer, Tiger, Net Worth, Final Answer, Salt Creek Bob and Sakic all primarily calving ease legends. As you go through the offering it does show that, great birth weights with explosive weaning weights. The EPD's also are second to none as these breeders will purchase and raise herd bulls that not only enhance their program but the figures as well. Another great marketing tool offered by these cattlemen.

We also have 10 top end open Angus heifers from Family Ties Angus and Goad Family Angus. They are the type of females that you can start a very strong cow family from or take down the show road for a junior member.

As I visited the farms before catalog time, I was really impressed with the quality of all of the offering and I know these cattle very well so if you are in need of assistance, please do not hesitate to call me, or any one of the consignors or sales staff and we will be glad to help you.

See you March 22nd at Dewberry
Rob Holowaychuk, OBI

FROM HWY 16: 21 MILES NORTH ON HWY 893, THEN 2 MILES EAST ON HWY 45,
THEN 4.5 MILE NORTH OF DEWBERRY ON HWY 893.

A Family Affair...

OFFERING 64 LOTS

- 42 - BLACK ANGUS BULLS
- 5 - BLACK/RED CARRIER BULLS
- 7 - RED ANGUS BULLS
- 5 - BLACK ANGUS OPEN HEIFERS
- 5 - RED ANGUS OPEN HEIFERS
- 10 - COMMERCIAL HEIFERS

Sale Staff:

Black Hill Angus/Bidwell Farms

Black Hills Angus and Bidwell Angus operate off the same farm site. They are family run cattle operations committed to raising quality Black Angus livestock. We have been involved in the cattle business since my grandfather, Mike Stachniak, purchased the farm in the forties. We moved into purebred Angus cattle 10 years ago and have been tirelessly trying to improve our herd since. We are having our first annual bull sale this year at Bar-B Cattle Station north of Dewberry and are very excited to see the results. We have always molded our herd to maintain EPD's reflecting low birth weights, high gains and good milk. Our focus also includes quality feed and maternal health. We use A.I., quality herd bulls, and purchase animals from other breeders that fit our program to give us what we feel are strong animals and we, of course, are not afraid to cull. If you're interested in the Angus breed contact us or visit our farm, we would love to have you out.

We hope to see you at the sale

Terry, Marshall, Travis Stachniak and families

9Y is an A.I. son of HF Tiger 5T, the 2009 World Angus Forum Grand Champion bull. Just like his sire, 9Y has a low birth weight and a well above average weaning and yearling weight. His 2013 calf crop averaged 83lbs. birth weight, and at the end of September the combined weights of his bull and heifer calves averaged 746lbs. Every one of his calves are stamped 'Tiger' with a long, broad back, deep frame with powerful legs.

A Bada Bing grandson with a smooth long top and deep ribs. He comes from a strong maternal line that originated at Minburn Angus.

Family Ties Angus

Family Ties Angus focuses their herd on good strong traits that will work in all cattle farms and help too improve the herd they will work for. Achieving this is done by tight guidelines on BW, WW, maternal instinct and making the feed put into the animals do the work. We call our calves very hard at birth and again at weaning time, ensuring that only the bulls that will do the job remain on the farm. We pay close attention to hair coat, feet, testicular size and frame size on the animals we sell. If the bull wouldn't work in our herd, we don't want it in someone else's.

We have been born and raised around cattle and started raising purebreds about 8 years ago. We have slowly increased our herd to 80 purebred cows, by careful selection of replacement heifers and some herd dispersal buys. We bought Gordon Braithwaite's herd in December of 2011 and in May of 2013 we bought Gord Rattrays herd of black cows. This has given us some great bloodlines and cows that have proven themselves to be great mothers and raise champion bulls.

We AI about 35 cows per year and have been raising and purchasing herdsires to make our herd better. In 2012 we bought the high seller at the Standard Hill sale; a \$10,000 Tiger son. We also use a home raised AI calf out of SAV Final Answer and last year purchased an Sitz Upward son for \$7000 from Gord Rattray.

Based out of Marwayne, AB, we welcome everyone to stop by for a coffee and have a look at our females and bulls, our gate is always open.

We purchased Standard Hill Yahoo 40Y for \$10,000 as the high selling bull at the 2012 Standard Hill sale. One look at his offspring and you can see the stamp he leaves on all his calves. Big, strong well muscled calves who are long and all have the "Tiger Ears" as we call them. Yahoo comes from the great HF Tiger 5T, Hamilton Farms bull that is a common name to all black producers. Yahoo will catch your eye no matter what bull you put him beside, he is long, well muscled with great hair coat, good feet and a head and shoulders that just yell calving ease. With moderate BW, he is mainly a cow bull but his calves that have lighter BW could be used on larger heifers. Yahoo will add meat and muscle to your calves making for a bigger payday at weaning and sale time. Have a look at his offspring and add them too your herd.

Comes from the great sire Salt Creek Bob 7003; known for his muscle mass, smoothness and soundness. Bob 1Y has all the traits of his sire, just one look at his calves will show what Bob passes on to his offspring. GGRR Bob 1Y will add a outcross set of bloodlines that will bring mass and weight to his calves at weaning time. Bob's sons all possess that long smooth look, muscle growth, good feet and hair coat we all want our cattle to have. His females are very feminine, with great utters and good mother instinct. Have a look at the bulls from Bob on sale day to add some soundness to your herd.

Final Answer 15X is an A.I. bull out of SAV Final Answer 0035, the most widely used heifer bull in Black Angus industry. Family Ties 15X calves are consistently among the top of our weaning weights, they have good hair coats, solid feet and light BW. Family Ties 15X will give you the calving ease you desire so you can sleep soundly without worry during calving season. Use his sons with confidence on heifers or cows and have the pleasure of calving ease in the spring and good solid weaning weights on sale day. Family Ties Final Answer 15X calves will be a good fit in any program, adding muscle, mass and good temperament. His heifers are sure footed females with small, sound utters, good feet and great temperament. Be sure to have a look at his sons on sale day.

 EARLY SUNSET OAKLEAF 108K

GGRR 7A comes from Salt Creek Bob 7003, and can you say power and performance. GGRR 7A is an end of Feb calf and had our BIGGEST weaning weight of the entire bull pen. 7A will bring power and performance to your herd and will be a bull that passes his traits onto his calves. If your looking for a meat machine have a look at GGRR 7A.

GGRR 16A comes from Salt Creek Bob 7003 and a great dam that has continually raised great calves. GGRR 16A will work for you and your herd.

Selte Cattle Co.

"Keeping cows that work for us while producing calves that work for you."

Ian and Jessi are very proud to be bringing this selection of bulls which will work with multiple breeds while maintaining the base of our operation for providing calving ease bulls.

Showing interest in purebred Angus cattle as a teenager Ian started his herd. We then strengthened our base by acquiring half of the Spring Creek Red Angus herd of Bernard Boeckmann's. This, allowed us then to focus on bull power because we could take advantage of utilizing an already established herd. With advancements taking place using AI sires, bringing power up from across the border and eventually the ultimate goal of being able to use our own home raised bulls in herd.

Here at Selte Cattle Co. we strive to produce heifer bulls with more natural thickness, muscling, and depth. We also take note of new born calf vigor. We need calves that will get up and suck whether it is snowing, cold or raining and so do you. Our bulls were backgrounded on straight silage until December 10th. We then added grain by a total mixed ration. We like to background the calves to allow them to develop structurally before we start putting flesh on. This allows the bull to have increased longevity in the breeding pastures.

Where values and traditions still matter

CALVING EASE SCORES:

- * Cows only
- ** Exotic based heifers
- *** Angus based heifers may have to help the odd one
- **** Angus based heifers may have minimal issues
- ***** Shouldn't have to help sleep through the night calving ease

Black/Red Gene Carrier Bulls

These bulls when bred to red cows will produce 50% red calves and 50% black calves. When bred to blacks there will only be a red calf if the cow happens to have a red gene. These bulls will work for those red cattle lovers that want to take advantage of that little extra premium for black hided calves but still have some red replacements to keep.

Goad Family Angus

Welcome from Goad Family Angus

It is with great excitement that we bring to you the 1st Annual Family Affairs Bull and Select Female Sale. Cattle prices are at an all time high, grain prices are at a low from previous years, cattle are in high demand with the low global numbers, it is one of the most exciting times in the cattle industry and the future and optimism of the future is looking very bright and exciting as we see it. Also the added excitement to this sale is it being held at the Bar B Cattle Station north of Dewberry, this is a great facility that has not been used to the full extent the last few years, it is exciting for us to be able to hold the first sale in this great building in quite some time.

We are bringing to the sale this year, 5 purebred Red Angus females, that we feel will have a lot of potential for there new owners. They are sired by some of the most exciting sires that we have used in the past years. To add to the potential and excitement of these heifers we also going to include one straw of Red DMM Glesbar Barndance 35X, there has not been a more influential sire in our program than what Barndance has been doing. We feel that his full potential and the impact that he will have on the breed is just beginning and will be felt for years to come.

We want to thank every one involved in this sale. Thank you to Bidwell Angus, Selte Cattle Co, Black Hills Angus, and Family Ties Angus working with us to take this sale idea and all running with it to bringing it forward and making things happen. Thank you to all the existing and new potential customers, we know that there are many options out there when looking for breeding stock, thank you from coming to have a look at what our herd can do. Also I want to personally thank my family for EVERYTHING that they do on and off the farm, with out them our herd would not be where it is today without all their hard work and dedication. Once again thank you to everyone involved in this great idea!

Thank you, Cole

 RED TER-RON BRANDY 711L

Brandy is a heifer that we feel is going to be a phenominal mother cow. Her dam is the ideal young mother cow, she is moderate in frame and has a perfect udder to her. I feel that with the combination of Tequila in the pedigree, this will make Brandy an even sweeter heifer than her mom, her udder should be picture perfect and will raise those replacement females you wanna keep each year. Take advantage of these maternal females to produce heifer calves that will be in the keeper pen each year.

 RED TER-RON LUCY 117S

I truly wish that we had more of these Tequila females in our herd, they are turning into great females that are all laying down a perfect udder and are excellent momma cows. The dam of Lucy is another ideal young mother cow, with a great udder. She is pretty much identical to the dam of 143A, the only difference to pick them apart is that she has a shorter ear. Brandy and Lucy are 3/4 sisters, its not very often that you get to purchase 3/4 sisters at any kind of a sale. Sweep the ring and take both these heifers home for consistency in your females.

RED EGGEN GRAVITY 28J MISS 14L
RED EGGEN 12F MISS 60H

Miss is only a Mar 6 heifer calf, but she has the most performance of the group. 119A was a twin to another heifer calf and were both raised on their mom all year. As she had to share with another calf she still has a ton of performance. You look over the top of her and she has a huge hip to her with a big spring of rib. 119A fits right into the type of females that we are trying to strive for, we like to see that muscle carry deep into their quarter and flank with performance, well maintaining a strong feet and leg set under them. 119A is from the same cow family of the Cruise 139A bull that we have exhibited all fall, and he has gained alot of interest in him, he was purchased by Nielson Land and Cattle, we think that he will make a impact of this super strong herd of Larry's.

RED GOAD BOBBIE 131'13

GOAD 131A APRIL 05 2013 #1731610

RED TER-RON BOBBIE 890M
RED TER-RON BOBBIE 890H

Bobbie is the youngest in our group of heifers she is only an April 5 calf. When we were picking heifers for this sale we wanted to have a strong offering from our Freemont bull. When we purchased him he was a feature sire from Ter-ron, he was selected for his huge performance, the tons of hair that he had, and also the strong/correct foot that he had. From the first calf crop we are seeing that he is passing all of these strong qualities to each one of his calves. Bobbie will be the ideal brood cow, she will pass performance into each one of her calves.

RED GEIS LOIS 83'9S

Take a look into the powerhouse sires that are packed into this pedigree. Real Deal and Smartin' Up are to of the most performance sires in the market right now. All of our Smartin' Up females have been added to the herd for the exceptional milking ability. Each one of his daughters out performances herself, with their milking abilities. Lois is a moderate framed heifer, with a big hip and is really long bodied. Get these Freemont daughters well they are offered, there wont be many more Freemonts let go from our herd over the years as we really do like how strong they are.

Here is one of our first females out of the \$10,000 dollar Standard Hill Yahoo, Tiger son, we bought in 2012. The females are very feminine with lots of power and muscle to make them strong well built cows. 50A is as pretty as they make them and will be a great mother.

Comes from a Bowerman cow that has never failed me, comes in calf every year and produces me one of the biggest weaning calves in the fall. Her sire is the CBK 15X son who makes great well built females. If your looking for big strong females with good leg and feet then add 10A to your herd for production and power.

Comes from a home raised 5yr old cow that has great fertility, a lovely small utter and moves well at pasture. Her daddy is the CBK 15X bull that has raised us a lot of great females. 35A is a solid well built heifer that has lots of muscle on a moderate sized frame. Look her over.

Etherington Farms

Gary Etherington (780) 872-0148

LOT 65A - 5 COMMERCIAL HEIFERS

LOT 65B - 5 COMMERCIAL HEIFERS

10 commercial heifers produced by Etherington Farms on their Angus Beef Program. Gary started the program in 1999 and culls for birth weight, gain and ribeye area. These will be sold as 2 groups of 5 animals.
