BULL WARRANTY

We guarantee to provide you with a sound, fertile bull capable of servicing a reasonable number of cows. In the event that your bull is a non-satisfactory breeder, the seller will not, under any circumstances, be responsible for more than the original selling price of any bull or female sold in the sale. The consignor will not provide replacement or credit for physical injury or mismanagement. Therefore we stress the importance of insurance on your bull. An insurance agent will be available on sale day. Note: Bulls can be wintered until April 15, 2014 at no charge but all bulls kept must be insured.

We are proud to offer the donation heifer this year. With your help the proceeds will go to the Barrhead Agricultural Society. This organization has been instrumental in Barrhead and we really appreciate all their work to make our town a great place!

Donation Heifer Auction Procedure

1. The final bid in each round will denote the amount of that bidder's donation, eg.
Round 1 - Final Bid is \$300.00 to Randy Mitchell. Randy's donation is \$300.00.
Round 2 - Final bid is \$250.00 to Tom Jones. Tom's donation is \$250.00.
Round 3 - The female is re-auctioned on a downward scale until no further bids are received at the low of \$10.00
2. Each \$10 purchase (donated) represents one chance in the final draw. eg. Randy Mitchell has 30 chances. Tom Jones has 25 chances and so on down the scale to the final \$10.00 donation worth one chance each.
3. One ticket for every \$10.00 donated, bearing the contributor's name will be put into the draw barrel.
4. At the end of the sale, one ticket will be drawn, with the person winning the heifer.

OBI Welcome

It is once again with great pleasure to be working with the 2014 On Target Group to bring you their 2014 Bull Sale. Each and every year this group of progressive breeders brings in their top bulls to one of the best events of the bull sale season. The quality keeps getting higher and the demand of their bulls grows everywhere.

The 5 consignors; Dwajo Angus, Cinder Angus, Jones Land & Cattle, SIBL Simmentals, & CRM Simmentals have brought to you fresh new genetics as well as proven ones that enables you the customer to feel quite comfortable with making acquisitions from these farms. This year the group has been on the show road to Farm Fair, Agribition, Camrose Bull Congress and even New Zealand. They do market this sale and their own herd's very well and it shows in the interest they receive every year and especially this one.

The catalog is set up such with Feature bulls for each consignor and they are an impressive set of lead off bulls. I just saw them all this past week before writing this and was very impressed with all the consignor's offering. The calf market is hot right now and it is recommended to come and check out the impressive sale offering presented to you by these 5 young consignors.

I am very familiar with all the herds involved in the On Target Sale so if you need any assistance before or on sale day, please do not hesitate to call me, anyone of the consignors or sales staff. We will be glad to help you.

See you in Barrhead, March 18th

Rob Holowaychuk, OBI

Cinder Angus

Welcome to the 14th Annual On Target Sale from all of us at Cinder Angus. Thank you again to all the bidders and buyers of our females and bulls from the past 13 years your business and confidence in our program is truly appreciated. As usual, it is a pleasure to be working with some great cattlemen who continue to strive to bring some of the very best and freshest genetics possible to the sale. This year we have added some diversity to our offering, there are some great performance bulls including the Reserve National Senior Bull Calf Champion Red Cinder Lotsa Fame 33A and calving ease specialists including Red Cinder DJ 131A, a Red SLGN X-Files 006 son. X-Files 006 was part of Solution Genetics winning pen of Red Angus bulls at the Denver National Western Stock Show in 2011.

Our lives have been busy as usual with Brynne and Tavi showing and learning about cattle daily, they make us proud with their knowledge and are fast becoming our best show help ever. We would like to thank all of those that help with all the chores and problems that arise in daily farming activities especially Gail (Nicolle's Mom), Dwajo Angus and Lonestone Farms. If you have any questions or want to come check out the dams of the potential herd sires please don't hesitate to stop by, I am sure the girls would love to show you them and give you a social pop to wet your whistle. THANK YOU AGAIN!

Brad, Nicolle, Brynne & Tavi

Well, this is a bull that has found many friends. A herd sire prospect by Red Cinder Gonna B Famous and out of Red Diamond T Shawnee Rio. "Lotsa" 33A has so many terrific bulls stacked in his pedigree with the likes of Gold Bar King, Rio Grande, Pie Lo Canyon, and the immortal New Trend 22D. The Diamond T cow has been mated 3 different ways and consistently produces moderate birth weight with crazy performance numbers with an average 205 day of 823 lbs and average yearling weight of 1336 lbs - she is as good as they come. Lotsa is a powerhouse and yet smooth enough to calve easy. He has that eye appeal that has caught the attention of many cattlemen and judges alike, being named Reserve National Senior Bull Calf Champion at Farmfair this past year. This bull has as "lotsa" muscle expression and hardness about him as any bull out there and could be that next herd sire that you can count on.

TERMS TO BE ANNOUNCED SALE DAY AS WE WOULD LIKE TO USE THE BULL IN ONE FORM OR ANOTHER.

Luigi is a very angular, deep bodied bull with huge potential. He is a smooth shouldered calf with lots of muscle mass when you get in behind him. A full brother sold to Glen Mckain last year and I am sure the bull won't disappoint. Luigi's granddam is an unreal Bennett Total daughter that is a front pasture cow who is hard to take your eyes off of. She is great uddered and has a super disposition. A moderate birth weight with an easy keeping pedigree, don't miss this one on sale day sure to produce replacements.

CINDER LUIGI 6A
LOT 3

Well, here is Peep Show. I think Karen thought I was nuts naming him this, but true to his name, he is eye catching and you can't help but take a second look. This Red Clay Colt 21x son he came over with the lease cows, a beautiful front end and explosive growth. When you get in behind this bull you can see why we like him for his natural thickness and scrotal development. His 1452 lb adjusted yearling weight makes him the winner of the high performing bull calf this year. A 92lb birth weight, can you imagine the calves you could wean off this chunk? His dam is a Ter-Ron Touchdown 8S daughter that is moderate and a crazy perfect udder. She had a full brother this year and looks like another standout. A terrific disposition in this bull made it an easy decision to be part of Cinder's show team this past year.

This calf will be sought after sale day. DJ is a light 80lb birth weight, out of the new fresh sire, Red SLGN X-Files 006X. 131A is wide based, smooth shouldered herdsire prospect. We really liked X-Files when we were in Denver for his presence, smooth muscle definition, and great testicle development and it didn't hurt that his mother Red Meado-West Persuasion, a foundation cow for Solution Genetics of Cushing, Iowa. An X-Files daughter of ours was Spring Heifer Calf Division Champion this past year and will be campaigned heavily this next year. Red Royal Beula 131M has produced many great calves for us, and we have daughters producing in our herd. She has granddaughters in Family Ties and Lonestone herds. This bull is a frontline kind of herdsire, phenotypically

Optimus Prime is an embryo calf by the Prime Rib 411 bull and our Red Royal Freyja 55M dam, that we lost this past fall. A long, smooth made calf that is dark cherry red and a bigger framed bull. Lonestone Farms used a full brother that is throwing some great calves this year. Use on cows or some bigger heifers.

Belagio is a calf out of a new herdsire we used for calving ease and new genetics, and he didn't disappoint us. His -2.8 EPD for BW and +92 for yearling EPD puts him in the top 10% for both. 13A's dam was purchased from the great breeders of Aspen Hill when they dispersed. She is a very sharp fronted and angular female, just the way we like our Angus cows at Cinder. This bull has all the bases covered; low BW, high growth and a terrific, dark red hair coat for those long Alberta winters.

A heifer's first calf, she had this one in a hurry. Just 79lbs on a cold winter night, good thing he was in the barn. Robbery's dam also happens to be the maternal sister to Red Cinder Drive Thru 27A, another bull in the sale. A little shot of Red Cinder Martin' Up 132p doesn't hurt this family tree. This bull is a long spined, gentle natured boy that would make a great mix to the heifer pen.

Here is another great low birth weight, Red TR Bank Heist calf, out of a Red Cinder Martin' Up 132p daughter. This is a smooth made bull with lots of rib shape. This pedigree is a prime example of how we covet the genetics of this cow family. We have daughters retained from the 131M cow that are currently producing more great sons and daughters in our herd. The maternal grandam is the mother of the Super X-Files bull calf in the sale.

Drive Thru is a compliment of smoothness and performance, a bull you can use on heifers and cows with a light 80 lb birth weight. This bull calf will be 27N's last natural baby, as she stifled herself this past fall, but has left many great progeny. Balanced numbers with super disposition makes this bull a real eye catcher. Stan Halwa is a past buyer as well as embryos being exported from her. 27A is from our herd sire Red Cinder Road Trip18Y, a Red Lazy MC Detour son who is getting used throughout North America with fantastic results. Detour is now in Kansas working at Wildcat Creek Ranch.

This Famous son is out of our very best cow we own together with Lonestone Farms. You couldn't draw a better cow with a more perfect udder. She is an angular, wedgy cow that has seen many a show ring in her life, including being the high selling heifer calf at Red Roundup in 2005 for \$10,500.00. It cost us a pretty penny more for us to get her back, but thankfully, we did. This bull will calve easy with his soft lines and muscle pattern. Heather 101R has daughters producing in Brylor's, Lonestone, and Cinder herds, and a bull calf that was a sale feature sold to Brent Brewin and Delar Red Angus. Already Famous 101A has a great foot and would be a super addition to keep replacement females from especially with Sam's Prospector in his pedigree, a true female producer.

RED CINDER BRINKS 233A

Brinks is a power house of a bull that does a lot of things right; low birth weight of 80 lbs, 205 day weight of 842lbs and a 365 day adjusted of 1419 lbs. We can all see what 800 lb calves are bringing at the auction in today's market. Brinks is out of a Red K-C Mr.E daughter that always seem to crank out big, easy doing calves. Neil Letts bought the big powerhouse Pursuit son of hers last year and Goad Family Angus have a very good daughter that is making a name for herself over there. Brinks' sire, Bulletproof, is an outcross bull that we Ai'd to our cows and has many great sires in his pedigree that have gone on to produce tremendous cattle across the border, like Leachman On Target, Goldrobber, Beiber Make Mimi, and Leachman Red Spread. Bulletproof is a calving ease maternal giant.

Here's something unique, a Red LSF Bulletproof out of a Roy Rogers dam, a pedigree no one but us have the opportunity to use in all of Canada. Roy Rogers was a bull that was the Denver and Fort Worth champion the same year. Armoured's grandsire is Red Northline Rob Roy, one of the most influential sires in the Red Angus business, and has produced many sons and daughters that has put ranches on the map. 155A's grandam traces back to our great donor cow Red Royal Freyja 55M, and a daughter of her's, Red Cinder Freyja 55T, was named Reserve Heifer Calf Champion at the Denver National Stock Show in 2008. Armoured 155A will let you sleep easy with a low 78 lb birth weight and your heifers will thank you for that.

"Smokey" is just an April 2nd baby out of a Coneally Kincaid daughter. This bull is impressive and massive for a coming yearling. He has a shot of Red Royal Freyja 55M in his pedigree, which won't hurt his maternal qualities. Smokey has a sharp front end and super spring of rib. He has an unreal 1402 adjusted yearling weight and he can be used on both heifers or cows.

I-See is the second half of this pretty cool duo, he has a 65 lb BW. Their mother is a hard working Windover Burgess cow that never ceases to amaze me with the production that she exhibits every year. Coming 16 years old and barely showing her age, she will live to see 40 I'm sure. Great for use with confidence on your heifers.

A smooth I-Bull calf that I would use on heifers or cows. Don't let the birth weight scare you; the dam is an 1800+ lb cow. I-Bull calves out like a damn, both at our place and Larry Moore's. His mother, Red Cinder Mabel, was Intermediate Heifer Calf Champion in the first leg of the aggregate qualifiers for the World Angus Forum in 2009 and high selling heifer calf in the Masterpiece Sale at Agribition.

Jones Land & Cattle

HELLO EVERYONE AND WELCOME TO THE 14TH ANNUAL ON TARGET SALE!

We're happy to again be part of the On Target group and together offer a set of cattle which provide sought after genetics and qualities for the beef producer. As we wrote footnotes this year we thought about how we often make note of the maternal sisters we retain in our herd. We strive to create functional cattle and are happy to retain the progeny of the proven producers. A big thank-you to our customers for your confidence in our program and to our family and friends for your continued support.

As always we're here to answer any questions you may have about this year's offering and hope to see you sale day!

Mark, Alison & Family

MJLC is a home raised bull we own with Bill Letts. 4U's sire Minburn Fortune 87R (Main Event) is a cornerstone in the herd, siring performance cattle and top producing cows. 4U is siring moderate birth weight cattle with growth and style that are exceptionally easy-doing. 4U is a deep, thick, wide-topped bull with perfect feet and a great disposition. We are very happy with his daughters who have tidy udders and depth of body.

This red calf is out of Black parents, so he has really stood out in our black herd! He offers the opportunity of some new genetics for red breeders. He's been DNA tested and verified by the Canadian Angus Association as red. His Dam is a Fortune 87R daughter and his grand-dam has a straight Canadian pedigree. 1 maternal sister is retained in herd. He is a calving ease bull that will have a lot of visitors sale day in the purebred industry due to his unique pedigree and marketing ability.

This is the first set of calves to sell out of Recoil, who we purchased from T-K Ranches with Rainbow Red Angus for his depth of body, thickness and strong maternal dam. A bonus was that they are very docile and easy to work with. Recoil 72Y was shown this fall and had a great fall. He was Supreme Champion at Armstrong, Reserve Grand Champion at Farmfair & Agribition and a top 10 finalist in the RBC Challenge in Regina. Recoil is passing his traits to his offspring which you will see at the sale.

We bought Revolution at the Masterpiece Sale from SOO LINE for \$21,000; we bought him for his natural thickness, deep body and the maternal power behind him. Where Rhonda 5109 sold this fall for \$30,000 to Wildcat Creek Ranch out of Kansas. Revolution was Senior Yearling Bull Champion at the World Angus Forum. His calves are dark red and have natural thickness.

WELCOME TO OUR 14TH ANNUAL BULL SALE

We would like to invite our fellow cattlemen to check out our 2014 sale offering. The bulls this year are one of our strongest to date as we have used new sires such as JL Upward, Youngdale Young Gun, Crescent Creek Tomboy and Red T-K Recoil, while continuing to use our proven senior herdsires. We are very happy with the bulls we are bringing to town this year. Bulls are fed a total TMR Ration with a formulated pellet; no actual grain.

This past fall we got the opportunity to go to New Zealand for the World Angus Forum. We were on the search for new genetics and on the way met many Angus enthusiasts with the same passion for the breed as we do. We also for the first time ventured to the Camrose Bull Congress and had a very successful trip.

Come to the sale and enjoy the cattle and the hospitality from the On Target Sale Group. We would like to thank the bidders and buyers from the previous 13 years for their support. We would also like to thank all the people that help us during the year.

RED DWAJO LUCY 21T - DAM OF LOT 36

Sundance is a bull that just keeps getting better as he gets older. Sundance was in the top 2 in class at the Camrose Bull Congress. Good front end, big hip and good feet. The dam 21T has EPD's that are Top 1% for BW and Milk. 21T's dam, 73N is an Elite mother that keeps producing females that work. She has produced females that are working at Ringstead Ranch, Triple P, Carnwood, T-K and keeps passing these traits to daughters and grandsons. We have not even talked about the sire, Red T-K Recoil 72Y who has had admirers all over the world. A great show career already as seen in his footnote and will continue to be a mainstay at Dwajo. Sundance has a -2.1 BW, Top 1% WW and Top 10% YW. He also indexed 118 WW and 109 YW. This bull will work great on cows or heifers. This Sundance kid will be heard down the road for a lot of years too.

Enforcer is a stout bull out of Recoil with a ton of performance, No#1 in WW and YW with 114 and 119 indexes with a -0.3 BW; a great package here. He is also in the Top 4% for WW and YW EPD's in the breed. With the numbers all in a line here, there is no guessing here. 84W is a young cow out of the Sake bull from Bone Creek who is leaving us females with great feet, legs and wonderful udders. So if you are looking for a bull with performance, predictability and some style, Enforcer is your answer. Could be used on heifers.

SELLING 2/3 INTEREST & FULL POSSESSION.

Silverado has been a standout since birth. A Young Gun son who has eye appeal, extra length and thickness. Silverado's dam and granddam are Elite females. 3 Maternal brothers have sold in previous sales and 1 heifer to Blacktof Angus out of the Northern Select. She is a Dutch daughter which have proven to be great females with a ton of capacity. Silverado was named Senior Bull Calf Champion at the Farmfair National Show. He also was a class winner at the Camrose Bull Congress. He is a bull with a moderate BW and top 10% for WW and YW. Silverado is top of the line just like the trucks.

A real Stout Tomboy son who ranked No#2 in WW and No#1 in YW indexing 120 and 114. A bull with great numbers and looks to back it up. Dam has produced a female in herd and a female to Bob Hahn. Sunny Boy will look bright in anyone's pasture.

A heifer bull wait more like a Hue Hefner bull. 11A Anchorman incorporates style and smoothness from the mother with power and masculinity from the sire giving you a rare and all sought out complete package. If 11A could talk he would say something I think it would be along the lines of "Mmmmm... I look good. I mean really good. Hey everyone! Come look how good I look!" The dam is a Networth, Final Answer cross on the sire side and Tradition on the dam's side which has created a really deep cow with an awesome utter and a lot of style. Anchor-man's half-brother was senior Black Angus bull calf champion at Farmfair. 11A's sire gives calves with a lot of muscling in that back quarter which is really important because remember "if you've got an butt like the North Star, wise men are gonna want to follow it".

An Upward bull out of a young cow that is moderate in size with a wonderful udder. Rito Legacy is a different pedigree on paper. The Upward bull 181Y was the 2nd high selling bull at the Johnson Livestock sale and has not disappointed us. Heifer Bull.
