U2 “PERFORMAX PLUS” Yearling Bulls

After the past four year’s demand and positive customer feedback, we are bringing you our forth group of **PERFORMAX PLUS** Hybrid Simmental Bulls. We have based these cattle on proven genetics that will work in the native short grass prairie of Southern Alberta right along side of our Angus Purebreds. They have to deliver both **PERFORMANCE** and **MAXimum Maternal Power PLUS** High Quality and Consistency.

These Hybrids are unique in that all are registered and are the progeny of registered proven Angus cows (according to the Canadian Simmental Association, we are the first to register Hybrids using an Angus Dam and a Simmental sire).

These cows were selected as a representation of our Angus herd for their tremendous maternal strength and sound functional attributes.

*These Bulls give our customers who wish to crossbreed a consistent and **MATERNAL** alternative.*

“Cream of the Crop” Commercial Red Angus Replacement Heifers

from Majestic Ranches

These heifers come from one of the pioneer Red Angus commercial herds in Canada. The Schonhofers have been using the best Red Angus genetics for over 36 years, and the Majestic Ranches name has become synonymous with a quality program backed by quality people.

These age verified heifers carry **no brands** and herd health is second to none. The herd is on the Pfizer Gold Program and not one of these heifers has seen antibiotics or implants. They will all be palpated by a veterinarian prior to selling. Simon and Marg have been huge supporters of our program over the years and we are proud and honored to have them on board as part of this sale.
