

Ce Welcome

to our 11th Annual Bull and Female Sale!

I know there has been far too many days this winter with no squish in the cow turds! Finally though we are enjoying good times in the cattle business with prices for all grades of livestock. With the shortfall of cattle numbers, the breeding herd all over North America, and the steady increased demand for quality beef, there has never been a better time to invest in quality, productive, proven genetics. In the marketplace top premiums are being paid for carcass's over 1000 pounds. Now think what kind of genetics you need to optimize this goal, or the goals of your customers.

The bulls & females in this offering have this very goal in their blood as you will see in their performance records. They have the Young Dale look of style, extra hip and hair needed for our wonderful Saskatchewan winters. There will be actual weights, EPD's and ultra sound information for your appraisal.

We would like to invite you all to Alameda on April 8th, or earlier, to appraise our offering, or if you have the time, come to the farm. See our offering with their Dams, it is worth the trip and may well help with your final decision.

In Alameda on sale day, there will be a very good, sit down beef dinner provided prior to the sale. Join us at home or in Alameda. This is one shopping trip that will put some extra jingle in your jeans and ours.

Welcome to the Annual Young Dale Angus Bull & Female Sale.

On a per cow basis, Young Dale are without a doubt, the source of more herd sires working in Purebred herds than any other herd, in Canada. Too numerous to mention, the herd sires through Young Dale have phenomenal influences all across Canada, as well as the U.S.

Their unique program meets many people's wishes; a combination of excellent performance in a quality bull and one of the most talked about qualities is the hair coat - it is second to none in the land.

If you have never visited the herd, the appreciation for a quality brood cow presence is most evident. The cow families are highly cherished and understood, backed by superb udders and great feet. The diversity allows many breeders to select herd bulls - many herd bulls that can meet the needs of many different programs.

The heifers offered are from the heart of their program letting the buyers develop them into special brood cows.

We encourage your attention to this offering. A visit to the farm or attending the sale will not disappoint even the most critical buyer. The hospitality is second to none at both the farm and the sale.

If you are unable to attend, then please visit about your needs with Barry or Robb, or visit any of the sale staff as we are very familiar with the program.

See you Sale Day!

Rob
