We chose Effective to use on our heifers two years ago on Rob's recommendation. He felt that Effective was one of the best calving ease bulls he had seen in Montana. The calves did not disappoint. They were born small but very active. Effective daughters have excellent teat and udder quality.

Boomer is a masculine, long bodied bull with a big powerful hip. He is loaded with muscle yet he remains smooth in his shoulder and straight in his lines. He is a grandson of our Catherine cow. It sure is neat when you find a good breeding bull that you like and he goes back to one of your own cows. Boomer sons have sold to Van Len Angus, Northern View Angus and Duncan Guilloux. We are really excited about Boomer's ability to sire big hipped, long bodied and attractive cattle with lots of hair.

Big Bang was the high selling bull in our 2015 sale to the Guilloux Ranch at \$14,000. We retained an interest and were fortunate to have the opportunity to use him naturally for a season. He is arguably the best son of Boomer to date. His dam is from the Missie cow family and she has been admired by visitors as one of the best daughters of Mytty In Focus. His sons have grown really well and display the same structure, body capacity and proud carriage of their sire.

We purchased Provincial as the top selling bull in the 2013 Prairie Grass Bull Sale at Airdrie, AB. We were very impressed with his muscling, character and sound feet and legs. His dam would pass the most critical inspection and is an Elite Dam, as is her dam. Provincial is the best breeding bull we have used in our red program, natural or AI. His sons display more thickness, capacity, masculinity and character than we could have ever hoped for. His daughters are in production and they have excellent udder quality and maternal characteristics.

Structurally sound feet and legs are the product of good genetics, proper nutrition, plenty of exercise and the absence of very high energy rations over extended periods. We do our best to ensure that our bulls have sound feet and legs. Weather permitting, we will once again display our bulls on packed gravel prior to the sale allowing you to assess their feet with ease.

CHECK OUT OUR WEBSITE AT

www.windywillows.ca

FOR MORE INFORMATION ABOUT OUR PROGRAM!

ROB TRIBUTE

As we prepare for this sale, our 15th at the farm, we feel a very large hole! The man who guided us and encouraged us over the last 15 years passed away last October, doing what he loved, picturing cattle. Rob Holowaychuk had a profound influence on our program and our herd like he did for so many others around the country. His advice, always carefully considered if not always heeded, usually began with that now familiar line, "Let me help you out...." And help us he did. Whenever we had a problem or suddenly needed some advice, Rob was always there. That's what we will miss most, not just his presence on sale day but knowing that he was always there if you needed something. Even though his voice mail was always full, we knew he would get back to us! We always enjoyed the time spent with Rob and he truly cared about what was happening in our family. That's the way it is with a true friend!
