Sight Unseen Purchase

We are here to sell you the right bull for your program. We believe you need to see for yourself the animals we have on display. However, if you cannot make it to view the animals before sale time, please contact any of the above sale day numbers and we will find an animal that fits your needs and budget to the best of our ability. All information is kept confidential.

Fertility

All bulls are semen tested and the scrotal measurements are taken before sale day by a certified veterinarian and will be provided on sale day. Any bulls who are decision deferred will be noted and presented up front before sale time.

Terms of Sale

Payment is required in Canadian dollars via cash or cheque. All invoices must be settled before delivery of animal unless prior arrangements are made. All bulls are sold under the Canadian Angus Association standard terms and conditions. In all cases the seller is not responsible for more than what the animal sold for. OBI Livestock Ltd. will be sending out the invoices after the sale is completed.

Delivery

We are offering free delivery within 300 km of farm, anything over 300 km will require further arrangements. We will hold the animals free of charge until April 15th, after such date the amount of \$3.00/day will be charged until delivery or pick up is made. Any animals staying at the farms must be insured. If you pick up your animal within a week of sale day, we are offering \$100 dollar refund of your animal purchased.

- ★ ★ ★ Heifer Bull

Welcome again everyone to our fourth annual bull sale. Excitement builds in me everyday as I analyze the bull pen we have on offer this year. I feel stronger than ever that these bulls have come to be the very best we have offered yet. They are definitely the quietest bulls we have ever had the pleasure to work with. My granddaughters are out there with us in the corrals quite regularly and have there favourites picked out based on who they can scratch.

The industry is stronger than it has ever been with record breaking numbers in dollar values each week at our local auction marts and through purebred sales as well as genetics. We have tweaked our feed program a little more and are so very impressed with the results. Working closely with Barry Yaremicio from Yaremicio Ag Consulting has been a great experience as his knowledge is quite something and we have learned a lot from him. We have kept the high starch hot feed out of the program but yet have had great gain from high quality forage supplemented with oats, a high protein pellet fed at just over a pound per head per day. We have had an avg. daily gain right at 3.0 lbs per bull per day. We have allowed these bulls to mature at a controlled rate. We have confidence that these bulls are bred and fed to last for our customers.

Again we welcome Mark Holowaychuk and his OBI team who work closely with us throughout the year on female sales as well as our annual bull sale. Any questions can be directed to Mark, myself or Kendra and Matt.

Thank you to those who have purchased from us in the past and we look forward to meeting you soon again! Come have a visit during our open house on March 4 2025.

Dave & Marilyn Hofstra,
Matt, Kendra, Wacey & Raleigh Fisher

**If you visit the bull pen
prior to the sale,
we will include your name in
a draw for a \$500 credit.**

Right from the heart of the program comes this amazing young bull that is the epitome of the term HERDSIRE. BAB 231M has all the bases covered. He has tons of performance with mass and volume and great bone quality. He's deep and long with large testicles and an incredibly good foot under him. AS WELL HES A HEIFER BULL!!! He is sired by the \$80,000 Showtime bull that we were fortunate enough to buy a semen package on. His dam is a high quality mama in the ever rapidly growing "Lady 31" cow family. She has a high quality udder and did an amazing job on this guy. Take a second look or take the time to come have a look. You won't be disappointed!

Another big soggy deep fella here. The Easy Rider bull has left us with some fantastic females and this guy should do the same for you. Big and stout, long like the train. He has a great disposition and is super quiet. The rib shape and depth he carries is what we strive for. Heavy bone and all kinds of muscle in him. His calves will put pounds on that scale come sale day. His dam is highly regarded around here as an all around producer. This guy will add frame and size to your moderate females. If you miss him in the pen he surely gonna come find you, he's just that quiet!

Here's another standout in the pen. He catches your eye from every angle. He's got that extra dimension and with that brings him into the top end of the offering. Big topped and lots of red meat and muscle in this guy. His mother has been a stand out at Avelyn since she was born. At 11 years of age she doesn't miss no matter which way we breed her. Kind of wish she would throw a few more heifers our way, they're that good.

MATERNAL SISTER SOLD TO PEDERSEN LIVESTOCK

Here's a really good Atlantis calf. Stamped a lot like the old boy. Atlantis made them thick and shapely and this guy got every bit of that half of the gene pool. One of the deepest quartered bulls in the offering. Lots of length of spine and muscle shape. His dam was a big part of our program in recent years. She had a really nicely balanced udder and did a great job on this one. Have a good look here!

Here's a little different breeding twist for you. A Brookdale Brutus calf that has been the topic of a little heated contention at the coffee table. Should we keep him and use him or do we let him go. His mother comes from the most productive family that ever walked here at Avelyn. They just flat produce year after year. I dare say he is the deepest ribbed bull in the offering. He's got great big nutts and he will give that shape and rib to his offspring I'm sure. His mother has a great udder and a bright future as she is only just a second calver. Brutus calves have been well received in sales these last couple of years.

This guy has alot of great attributes to him. Thick and soggy, beautiful dam, long spined, big topped with that "I am a herd bull" presence. We always admired the Hendrix bull for his thickness, deep rib and how well he moved. This calf reminds us a lot of him. The 'Pride 702' family has done well for us. They all had that great feminine head that we desire and quality udders that stood the test of time

I must say the Showtime sons are both very attractive in their makeup. He has the kind of eye appeal that keeps you coming back to him. Lots of round muscle and big top in him that always draws attention his way. The Zara cows have always been a standout cow family around here. She has that feminine look and well balanced udder. The Showtime sons are very arguably a top sire group here this year as his half brother is the leadoff in the sale. 032M also has the highest ADG this year of a whopping 4.0 ADG.

Moufassa as he is named, was a King in the movie. His dam 05B could be a Queen here at Avelyn. She is a big deep bodied cow that keeps us wanting a whole herd like her. Add in Cudlobe Growth Fund 20J as his sire you should have Herdbull candidate all around. This could very well be the sleeper you want to watch for. Great calf with high predictability in his pedigree.

Big time heifer bull here that allows for those sleep easy nights at calving time that we all cherish. With a mother like 172F this guys calves should pop with the high performers. Lots of cow power back in this pedigree with sires like Xcaliber, Bravo, Charlo and the Soo Line Lady cow. Oh did I forget to mention the old Pride 172W cow here at Avelyn. Ya she earned the right to die here on the farm. I would say the most talked about cow that ever walked here.

If you need heifer power this one checks all of the boxes. 153M is the kind we desire in our keeper pen for heifers. Long sided calf with a beautiful dam. You just have to admire the balance and clean front end on this guy. 153M is the kind that will give you calves that slip right out as babies on those first calf heifers. He has the numbers to support this too with a big spread from birthweight to calving ease. With that 72 pound birthweight three stars probably aren't enough on this one.

Here we have a Hendrix son that easily could have led off the whole deal this year. This guy has that commanding presence and style that makes him so appealing to the eye. Lots of length of spine, great foot, square hipped and lots of width and top in him. Then we go to the maternal side and I say double wow. The 202E cow puts the package all together. Oldest daughter of the 172W cow I mentioned in earlier in lot 10's footnotes. That makes this guy a maternal sib to the Lot 10 calf. Maybe you want to double up and take them both for heifers. You won't regret it! 202M is a bull you have to see in person to really appreciate, especially with a 68 lb birthweight.

053M has that great look with a nice head and skull structure, tight shoulders and is long sided. In his pedigree you see cows like Baldrige Isabel Y69. She shows up in many pedigrees for a good reason. Her genetics are just that good. On his dams side you see that she is Easy Rider daughter. First thing we talk about Easy Rider is just how great the udders are on his daughters. Maternal grand sire to this one is Remington Old Post 27W. To this day id say I don't think I've seen bigger or better feet than that bull had. All good reasons to consider this guy for your next herd bull.

Here is the only Potent bull calf born in our barn last year. Several heifer calves born and they ALL made the keeper pen. RAML Potent 8427 had a very high customer appreciation score with Semex and for good reason. He brings a lot of great things to the table. 511M is a very proud masculine calf for his age. He would work well on cows and large framed heifers that maybe need that extra dimension in their calves.

Really strong Fortune 872 calf here. His picture doesn't do him enough justice. Lots of muscle shape and overall thickness. Big boned and sound is how I describe this one. His dam came out of the Garnier dispersal and has been one of the top producers of the group we purchased that day. Bit of sleeper I'd say. Make sure you find him when you tour the pen.

Big growthy calf to round out the offering. This guy keeps coming on stronger everyday. Lots of top and width to him. His pedigree has Coalition 206C and Musgrave Sky High 1535. Both sires we use and desire what they have to offer. Dam was purchased out of the Daines dispersal. Very productive cow with a lot to offer.

Proudly providing nutrition solutions to our member owners for the last 6 decades

At CJ Feeds we offer complete product lines and nutrition support

- Calf starters and creep feeds
Mineral feeds: floor-stock and custom blends
Complete line of supplements
Plain and medicated feeds
Ration balancing
Right Way beef rations

DREAM. GROW. THRIVE.

Yaremcio Ag Consulting Ltd.

The feeding philosophy at Avelyn Angus is to grow and develop bulls and heifers to allow them to express their genetic potential. The feeding programs are adjusted at 100 pound increments to maintain appropriate growth rates. Grain and supplement feeding rates increase with animal size, but Dave Hofstra does not exceed a combined total weight of twelve pounds per head per day when feeding growing bulls that are 1300 pounds or larger. This reduces the risk of hoof and leg problems. With good growing conditions in 2024, forage quality harvested is higher than average, which reduced the amount of grain and supplement required in the rations.

Enter Lucky 7 Cattle Co into Google maps to find us!

Welcome to our 4th Annual Bull & Female sale. As the 2025 sale season kicks off, we would like to thank you for taking the time to flip through our catalogue. We know there are endless options when it comes to selecting your next herd bull or replacement female so we appreciate you considering our program. Once again, we are teaming up with Avelyn Angus to offer you a top notch set of Black and Red Angus bulls and females.

2025 is shaping up to be a record year so far with never-before-seen record prices at auction marts across the country. It truly is an exciting time to be in the cattle business. That being said its also a great time to focusing on herd improvement. I've said a few times "it doesn't hurt so bad to see the average ones go down the road when you get paid well for them."

Above average snowfall so far this winter will hopefully give us enough spring run off to fill up a few dugouts and bring on the grass early. Honestly, I'm trying to find something positive to say about the weather as I sit here writing these footnotes in -34-degree temperatures trying to keep the cows and calves' content and hoping the cows due to calve will hold off till this extreme cold stint is over. On the bright side Balzac Billy predicts an early spring so hopefully we are one day closer to some longer days with warmer weather.

This year's offering is one we are extremely proud of. We always strive to go off the beaten path when making genetic selections and aim high to chase the best curve bender genetics we can find. The bulls have been developed on 16% Right Way Classic pellets from Country Junction Feeds with free choice hay, oat greenfeed and Uniblock 20% Elite mineral tubs. We have always and will continue to feed our bulls with their future in mind. The goal being to challenge their genetics for gains but keep them in athletic body condition. The heifers on offer stem from our most productive cow families and if they weren't in the sale they would be in our keeper pen. They have been developed on 16% Right Way Classic pellets, free choice hay and Uniblock 20% Elite mineral tubs as well.

The annual open house will once again be at the farm on March 2 with viewing of the offering plus refreshments and hospitality. We welcome you to come and go through the offering and cowherd anytime before the sale closeout on March 4. If you have any questions or would like to discuss any of the bulls or heifers in the offering, please feel free to give Stacey, Kylie or Mark Holowaychuk (OBI Livestock) a call.

On a final note, we would like to thank our customers who have supported our program over the years and those that have expressed interest in our genetics. Your trust in our program means a great deal and we hope to continue to be your first stop for your bull and heifer needs.

Garry & Marsella
Stacey, Jeremy and Kylie Simpson

DAM

- ♦ The kind of heifer that we strive for. Big barreled, stout and broody.
- ♦ Dam was purchased from Windy Willows a few years back and has been a solid producer.
- ♦ Maternal brothers working for Ian Schmidt and Wayne Voegtlin.
- ♦ Bull builder in the making right here.
- ♦ Sire verified.

- ◆ Stacey's pick of the heifers.
- ◆ Black red carrier Marlin out of a Bravo daughter who did a whale of a job on her first try.
- ◆ The Tippy cow family strikes again. They are no fail producers!
- ◆ Flashy heifer that you have to appreciate for her balanced profile.
- ◆ A whole lot of good in this gal. Mark her as special!
- ◆ Parent verified.

- ◆ Here's a looker!
- ◆ Sweet made black red carrier Marlin daughter going back to another good Bravo daughter.
- ◆ The Marlin X Bravo cross worked pretty well I'd say.
- ◆ Long bodied and ultra feminine in her make up. She reminds us a ton of her dam 22K.
- ◆ The Lady cow family is one of our favorites with many daughters in herd.
- ◆ Parent verified.

- ♦ If you like them big and broody here she is!
- ♦ Marlin daughter out of a first calver Peterbilt daughter. She really outdid herself here.
- ♦ Another descendant of the Lady cow family. They are the staple of our cowherd.
- ♦ Parent verified.

- ♦ Someone got the memo it was picture day!
- ♦ Super sweet made heifer going back to a heifer we purchased from our friends at Poplar Grove Red Angus through the Northern Select a few years back.
- ♦ Long bodied heifer with a balanced profile and a solid foot structure.
- ♦ Marlin really stamps his females!
- ♦ Sire verified.

- ♦ The only Kryptonite heifer on offer going back to the Lady cow family.
- ♦ Dam 12G is the last natural calf out of SKG 12W donor and matriarch of the Lady cow family.
- ♦ A heifer that Stacey didn't want in the sale but somehow, she made it on the sale list.
- ♦ Long bodied, feminine made heifer with that Kryptonite coat of hair.
- ♦ Maternal sisters working for Douglas Simpson and DKF Angus.
- ♦ Parent verified.
