Terms Conditions

Terms of Sale -

Cash or cheque payable in Canadian Funds. The right to property shall not pass until after settlement has been made. All settlements must be made with the clerks of the sale before cattle will be released unless prior arrangements have been made with the seller.

Bulls sold with a "Responsible Breeder Guarantee of Satisfaction".

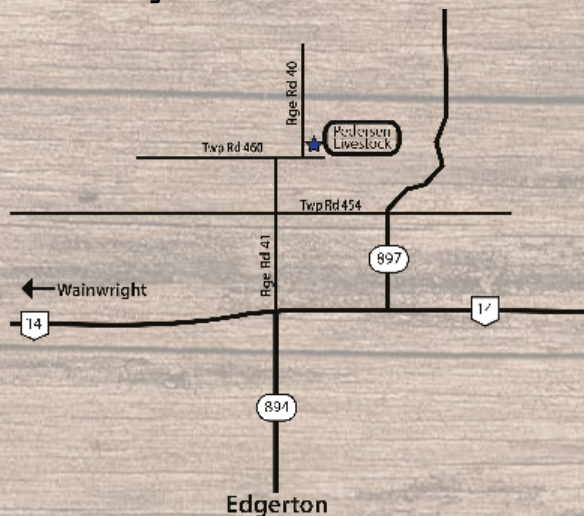

In the unlikely events of a dispute, the regular terms and conditions standard with the applicable breed association shall apply. **In any case the seller is not responsible for more than the purchase price.**

Purchasers Risk -

Each animal becomes the risk of the purchaser as soon as sold. Insurance will be available sale day.

Liability -

Purchasers must look to the seller of the animal for fulfillment of all guarantees and representations made are hereunder. Provost Livestock Exchange are acting as agents and assume no responsibility or representations made by the seller.

We are retaining the right to collect semen for in herd use on all the bulls at our expense and your convivence

Delivery Options

- 1- Pick your Bull up by the end of the week following the sale and receive a \$150 refund
- 2- We will work with you and start delivery of the remainder of the bulls around April 15th and get them to your yard or Pastures. If you are unable to take your bull at that time there will be a charge of \$3.50/day feed charge. **All bulls remaining here for later delivery must be insured.**

Sight Unseen Purchase Plan

We look forward to seeing you on Sale Day but if you cannot make it and wish to participate please call any of the sale staff or sale contributors with your selection criteria and price range and we will try to fill your order. All bids will be kept in strictest of confidence. Your "Satisfaction is Guaranteed".

Buyers Discount
Buy 2 or more bulls and get \$100 off per bull

Welcome

Another year has passed, and we're gearing up for the 2025 edition of our sale! A huge thank you to everyone who made the past year a great one.

While we took the fall show season off, the kids proudly represented us at multiple junior cattle shows, and we had the opportunity to attend a few tours throughout the year—catching up with old friends and making new ones along the way.

We are incredibly grateful for the many people who support us year-round—our families and friends—whether it's helping at cattle shows, preg-checking, dropping off meals, or shuttling kids to activities when we're stretched thin. From the bottom of our hearts, thank you. We truly appreciate each and every one of you.

To our past bidders and buyers, we sincerely appreciate your support. We love catching up and seeing how our animals are performing in your herd—it means the world to us.

As always, we welcome you to stop by anytime to walk through the bulls and talk cattle. Our sale will once again be held in the shop at the farm, broadcast live on DLMS, with the team from Provost Livestock Exchange handling the selling. Mark Holowaychuk from DBI will also be on hand. If you can't make it in person, don't hesitate to reach out to us or any of the sales crew—we'll be happy to help you find the right animal for your program.

At the Farm - Edgerton, Alberta

Pre-viewing the sale offering is Encouraged

Our Program

Our program revolves around the mamma cow. Our Sires, their dams and siblings are scrutinized heavily before purchasing. We concentrate on creating sound, fertile and easy fleshing females that will last. Most of our pastures are comprised of the steep Battle River hills, so foot and leg structure is key. Udders are a passion of ours; small teat size, properly spaced, adequate milk flow and suspension are a must. Our cows don't get second chances, they raise a quality calf and come in bred on time or they catch a ride to town. We were told years ago to 'Build the right cows and the bulls will take care of themselves' and we stand by that motto today. We utilize AI and Embryo transfer to increase our rate of genetic advancement. The cows are on grass as long as possible. We work together with the Lloydminster Animal Hospital to provide a complete herd health program and Bullseye for our herd nutrition needs.

Calving Ease Score

This year we thought we would try something new for us and give each bull a score to help you better understand where we feel they fit in terms of calving ease.

Remember

- There are multiple factors that affect calving ease: Environment, Feed Program, and Genetics.
- Keep in mind that 50% of your calf's genetic birth weight relates back to the mother's genetics and birth weight.
- There is a correlation to birth weight and growth and they are directly related.

To Help you with your selection we have given the bulls a rating 1-5 star. Taking in mind the following criteria:

- Actual Birth Weight
- BW EPD Score
- CE EPD score
- Shape and build of the bull
- Consistency of birth weight and calving ease of sire and dam's Pedigree

- ★ 1 star - Recommended for cows only, with expected higher performance.
- ★★ 2 star - Recommended for Mature cows and younger cows.
- ★★★ 3 star - Recommended for Cows and heifers with larger frame and lower birth genetics with some supervision.
- ★★★★ 4 star - Safe for heifers with limited supervision
- ★★★★★ 5 star - What we expect to be safe to use on heifers with very little supervision and lower expected growth.

We were fortunate to acquire a limited amount of HF Kodiak semen, which we have used sparingly. Kodiak has cemented his place in Angus history as the sire of the first Canadian champion pen of three bulls to win at Denver. These tried, tested, and proven older genetics continue to make their mark. This young herd sire embodies those qualities, being out of a standout female destined for our donor program—a cow that commands attention and admiration. He is packed with power, dimension, and exceptional length of spine. Evaluate him from the ground up, and we're confident he won't disappoint. Additionally, his excellent temperament makes him a pleasure to handle, an attribute we know many value.

Here's another opportunity to acquire a Jullian son, and we couldn't be happier with the results we've seen from him. Our good friends at Harprey have had tremendous success with Jullian, both in the show ring and in their breeding program, producing many high sellers along the way. He's been a reliable calving ease option for us, offering impressive curve-bending performance. We expect this calf to follow suit, with his smooth front, long spine, and undeniable "look-at-me" presence.

This young fella had a challenging start. As a twin, he was grafted onto a nurse cow but unfortunately, things didn't go as planned. He became an orphan and had to fend for himself. Despite the odds, he adapted incredibly well, which we find truly admirable. Once again, he's a Jullian who will calve easily and produce a great group come fall. Mark him as a real sleeper.

A calving-ease option sired by Bulldoze, our 2015 lead-off and high-seller, purchased by Clifford Land and Cattle. We reintroduced him via AI after witnessing the exceptional quality of females produced by his sons - leaving mouth watering females in our customers herds. His dam was part of our April calving program, was bred early and has maintained that calving interval—a remarkable testament to her fertility.

This is the first calf from a Prime Cut daughter with an udder so perfect it could be a blueprint. She's a standout in her age group. Unfortunately, a gate didn't quite get chained properly and we had some bulls go for a tour, so he will sell without papers. Sired by a Purebred Black Angus sire, just not sure who so he sells as unregistered. That won't change his ability to cover your cows or heifers

Will-Dorr Prince 1Y has been our trusted calving-ease bull for many years, with both his sons and daughters being very well received over the years. Unfortunately, we lost the remainder of our Prince inventory due to a semen tank springing a leak, which means this could mark the end of his legacy here. Prince sons are known for their easy fleshing, abundant round muscle, and overall exceptional shape. Majesty follows that stamp.

Stud! This bull has been a standout since birth. He's proud and extended through his front third while packing explosive muscle and a wide top. He traces back to the Dark Duchess 239P donor, the high seller at the MJT dispersal, stacking the maternal strength of his sire Kingsman 8030F for a powerful genetic combination.

GRANDAM: MJT 239P

SIRE: KINGSMAN

We purchased 031G out of the Northern Select Sale from our good friends at Avelyn Angus. The Northern Sale has developed a reputation for cranking out some very productive females and 031G is just that with last year's heifer becoming the high-selling bred heifer at this year's Northern Select, bringing \$15,000 to Ter-Ran Farms. Pairing her with Jackson 52J, the great Kingsman son, has created a true masterpiece. Herd bull time!

The only Emerald bull available this year, as we had a high percentage of heifer. He's one we believe has a huge future—easy-going, great to handle, and packed with user-friendly birth weight. He checks all the boxes and does everything right. Study him from head to toe, front to back, from every angle—we believe he's simply GOOD. His dam is a top-producing Espionage daughter, and Espionage is, of course, a direct son of Hamilton's 102W donor. If you believe in stacking top females, take a serious look at this pedigree.

Merit Investment offspring have been generating excitement across North America. Most recently, LT Marquee sold a half interest for \$700,000 USD. We secured a few straws of Investment semen and used them carefully. 402E had proven worthy of a mating using one. She has produced past high-selling females for us, including PED 62J, a \$15,000 bred heifer at the Ladies of the West sale. This bull will leave you with stunning females backed by stacked maternal pedigrees.

Density has long been one of my favorite Angus sires. We tend to dip into the tank each year and pull a straw or two out in hopes of producing another great female to add to the herd. Unfortunately for us—but fortunately for you—this one came out a bull. If you're looking for a sire to produce mouth watering females here is one that will do just that! Keep every daughter from this soft-haired, broad-topped fella.

We partnered with the great folks at Clark Ranching to acquire Everblack Triumph 10K, a sire backed by top-quality, proven dams. Triumph has been an extremely consistent calving-ease sire for us. His dam also produced a 3/4 brother to Triumph, that sold for \$64,000. This bull's dam is a direct Density daughter with a big sweeping rib, added capacity, and an ideal udder. A calving-ease bull with the power and growth to run with the cows.

We love the herd bull character and presence this chunk exhibits. From his strong skull and crest up front to his wide base and massive hip, he's built to add power. The Bravo calves have been as consistent as any sire group we've ever had—extremely easy fleshing with plenty of mass, muscle, and substance.

A calving ease option with impressive growth numbers to back it up. The Andee cow family has been a go-to for low-birth-weight genetics, and this bull follows suit. His sire, Jag 100J, was a home-raised Resource son we used as a yearling before selling as a two-year-old to Code Ranches

Closely related to the 344L bull, if you are planning on breeding a larger group of heifers wouldn't it be nice to turn out a couple extra age calving ease rascals that close and add consistency to a calf crop. Long sided, sound-footed, and built to last.

GRANDAM: PED 2W

This could be the stud of the pen in the extra-age division. His dam came from the Bar DK dispersal and has more than earned her keep, holding an Elite Dam designation with the Canadian Angus Association since 2017. With tried-and-true genetics on both sides, this bold-sprung bull has the look, the build, and a few extra bonuses.

A powerful genetic combination featuring the famous Rose cow family from Brooking on the top side and the Brides from Diamond B, made famous at Bar EL. Stacking proven cow families like these ensures this bull will breed true, producing top-quality females—the kind that built the Angus breed into what it is today.

We were fortunate to be able to run some heifers at our good friend Mike Ferguson at CNI Ranching and his herd sire K Lazy T Angus Ranch 84'21. He was a sire I had bought for Mike at Traxel's sale and was sure pleased to be able to sample ourselves. He did a real nice job and left some excellent offspring of both sexes. Check this one out for yourself, I think you will be pleased as well.

A standout in our red division, this bull may be one of the best we've bred on the red side. Direct Copenhagen sons are rare these days, and his pedigree includes our first red female to enter our donor program. We only flush females who have proven their worth, and 112E has done so in spades. Her daughter, 22H, followed suit by producing last year's high seller. This dark red stud is well-structured, good-footed, and loaded with rib shape.

Another heifer's first calf from a well-bred Dwajo female. Like his dam, he is a deep, dark blood red. Smooth-made with a small skull, he is a sure-fire heifer-friendly option. His sire, Kenworth, has consistently been a top calving-ease bull, and 68M is expected to follow suit.

This Blueprint son came from an in-dam purchase at the Northern Select from Movin On Farms. His dam has been a fantastic addition to our program. Blueprint has been a popular calving-ease sire for Rhades Red Angus in South Dakota. A moderate-framed bull, he's a safe bet for the heifer pasture for many years.

The only yearling from our, 2022 Farmfair Reserve Champion, Fortress. His dam, a McGowan-bred female, came from the Cote package. This bull has added stretch and an extended front third. Smooth-made, a sleep-easy calving option.

Red Angus 2 Year Old Bulls

An exciting extra-age red calving ease option! His sire isn't just a banner-winner—he has proven himself where it matters most: in production. He has been tried, tested, and trusted for calving ease, and his daughters are now in production, showing real staying power. This bull follows suit—smooth-calving, easy-keeping, and full of shape from every angle. He's moderate in frame but not in muscle.

Another extra-age calving ease option in the red division, combining the Firefly line from Redrich and the BEELINE Donor from Duralta. He boasts user-friendly numbers across the board for calving, while also delivering style, muscle, and shape in a well-balanced package.

DAM: PED 48F

Kurt, Becky, Quinn, Trigg, and Tell of Pedersen Livestock have been a pleasure to work with, year after year. They are keen seedstock producers and have a deep set of Red and Black Angus yearling and 2 year olds. In my opinion, this is their most consistent and high quality set of bulls to date. I hope you can see this set of bulls in person.

The cowherd utilizes a year round chelated mineral program that is balanced to the cow's requirements and feed sources. This supports proper bull calf health and development from a young age. The bull development program is built to maximize forage utilization and gut health. All forages are sampled and analyzed to ensure quality feed sources are used. Once the calves are weaned, they are slowly transitioned to a TMR. The TMR is forage based and is designed to promote lean muscle growth,

allowing the bulls to express their genetic potential. Rumen health is of upmost importance, which is why suitable protein sources and proper starch levels are fed to the bulls. A probiotic is fed to optimize rumen efficiency. Chromium is now utilized in the bull ration. Chromium is an essential micromineral that most feeds are deficient in, and it aids in glucose absorption and increases protein accretion. This allows bulls to better withstand effects of heat and cold stress. The bulls remain on a TMR that stays at the same energy level all winter, allowing the bulls to grow consistently and safely.

Pedersen Livestock uses a total nutrition program on their entire operation, ensuring optimal performance and health of their cattle. If you have any questions about the nutrition of the sale bulls, please feel free to call.

Best of luck sale day!
