*Welcome* from OBI Livestock Ltd.

I welcome you to the 1st Annual Pieschel Farms & Piro Red Angus Bull Sale. Both operations have successfully sold bulls the past many years and when the chance to have these 2 operations partner up, the choice was simple – have a brand-new event for central Alberta where you can get a Black Angus, Red Angus, Simmental or Hereford bull from.

Pieschel Farms continue to develop a top-end program with the mother cow being the success of the program. When touring the farm over the years, you can count on just that. Keeping the cow herd at a number they can handle but the quality that is there is outstanding. Using current A.I. Sires and top walking bulls, the family operation has an exceptional offering this year. The Black Simmental Show bull was one of the best in the land this year. The Black Angus offering is so consistent and good, a trip you will want to make to see yourself.

Piro Red Angus continues to grow up that ladder in the Red Angus Fraternity. The cow herd here as many saw at the 2024 Alberta Tour this year will make a lot of purebred and commercial operations come for a visit again. You want power bulls that are dark red with the cows to back it up, here is your place. The offering consists of 46 Red Angus yearling bulls that sure will please you. Piro Red Angus have the bulls in 3 pens at the farm for your viewing pleasure.

Please do phone the consignors and go for a visit to the farms or call myself as I am very familiar with these 2 herds and the great offering in the catalog. See you March 21 at Stettler, Ab.

Mark Holowaychuk

**FRIDAY, MARCH 21, 2025**

**12:00 Lunch Served by Teresa's Catering  
1:00 p.m. MST - Piro & Pieschel Sale**

# Pieschel Farms

On behalf of our family, we are so excited to welcome you to our first annual bull sale with our good friends from Piro Red Angus; Mike, Jade, the girls, Pius, and Rosemarie. Having our own bull sale has always been the dream, and we feel like we have finally reached the right numbers and customer base to make our dream a reality with the right people who share the same passion for the cattle industry.

Our yearling bulls will not disappoint. We think this is the strongest and deepest set we have had on offer. Quality over quantity has always been our motto as we focus on moderate birth weights, high weaning and yearling weights, udder quality, good feet and leg structure, and docility.

This year we have a wide variety of performance bulls and heifer bulls in our Angus, Simmental, SimAngus, and one very unique Hereford bull, all representing some of the top-quality genetics in each breed right now.

All bulls stay out on grass with their dam until the first part of September when we wean them. They are pail-fed a super oats feed ration and given free-choice hay. Our bulls have never seen creep feed and have not had their feet trimmed. All the bulls are docile and easy to be around.

This is such an exciting time to be in the cattle industry, with record calf prices and optimism for the future. This is a great time to purchase a new bull!

We would like to invite anyone to the farm prior to the sale to see the bulls, their milking dams, and walking herd sires. As our numbers continue to grow, we look forward to welcoming new and repeat customers and friends.

## *Devon & Rae-lee, Peyson and Nash*

We would like to say a special thank you to the following people:

Grandpa Gary, the legend who has taught us everything we know about cattle, stays behind to feed cows when we are away, does the early morning cow checks and is always willing to watch Peyson and Nash when we need to get stuff done outside. Thank you for everything you do for us!

Doug Benneweis, our business partner and dear friend - thank you for believing in our program and trusting us to make the right decisions with breeding, selling, and purchasing.

Jace Link, who stepped in a couple of years ago to help us when we were in a bind, had no experience with cattle, and fell in love with the purebred life. Jace steps in to help us at all the shows, to calve cows, halter break, get ears on picture day, and is just always there when we need a drink. We couldn't do it without you, buddy!

Buck Thompson, someone we look up to and admire, who has taught us so much over the last few years and introduces us to everyone. Your experience, advice, and knowledge in this industry have really meant a lot and have helped get us to this point.

GRANDPA GARY

DOUG BENNEWIS

JACE LINK

ALLEN (BUCK) THOMPSON

# PIRO Red Angus

A huge welcome to the first ever PIRO & Pieschel Bull Sale!

After 30 years of selling bulls privately off the farm, we have finally decided it was time for change. We are diving into a new and thrilling journey, offering our bulls through our now annual sale. Over the years, we have made tremendous friends and clients in the industry. We have and continue to value all our buyers and the one-on-one relationships we are lucky to develop selling bulls privately, and we look forward to continuing that dynamic with our buyers during this two-day event.

Our partnership with Pieschel Farms was an easy decision to make. They are extremely knowledgeable in the cattle industry, and it shows through their success in the sales ring, the show ring, but most importantly in the trust and respect of their clients. We both have very similar ideas of where our cattle breeds should be, and our number one goals are in our clients' feedback, expectations, and outcomes.

Here at PIRO, we run about 240 registered purebred Red Angus cows and a handful of blacks. With vigorous culling, we have 46 bulls on offer this year. Our bulls are selected mostly on the dam's history and track record. Our females must be sound, structurally correct, exhibit excellent udder qualities, and most importantly stand on a solid leg structure with great feet to pass those genetics onto their sons. Longevity is a key trait that we strive to implement into our seedstock.

We believe breeding bulls should be fed well but not over-conditioned. They need to prove that they can put on appropriate weight and muscle but still be fresh enough to perform when the time comes to do their job. A bull's phenotype, weaning weights, and foot quality are most important to us when selecting a new herd bull. All these numbers will be available throughout the catalog along with EPDs. I would advise against picking a bull strictly on just EPDs, as there are two major factors missing from them: management and environment. *Another note... we want to give you, the buyer, a true representation of these bulls feet, therefor, none of the bulls feet have been trimmed.*

We are extremely proud of our bull and female offerings this year and would love to invite you and your family to come out to the farm and view our bulls, females, and herd bulls anytime prior to sale day. If you have any questions or need additional pictures, please reach out to me, Mike, or the O.B.I. sales staff at any time.

*Mike & Jade Zoller, Rayna and Isla*

*Pius & Rosemarie Zoller*

**HOMO POLLED • HETERO BLACK • GENETIC TESTED**

We are so excited about the future of this young herd sire. Although our Simmental numbers are small, Sniper 31M is the epitome of what we are striving to produce in any breed. This bull has been a favourite to everyone who has seen him on the farm and created a lot of buzz on the show road this past fall. Sniper 31M won two bull calf jackpots, was reserve intermediate bull calf at the IPE and Olds Fall Classic and was named the Reserve Grand Champion Simmental bull at the Presidents Classic during Agribition last fall. Most recently, Sniper made the final 4 at the Heartland Classic this February. Sniper's phenotype is flawless, he is massive boned, big hipped, wide topped and good haired. He has a perfect foot and good leg structure, a nice front end and has been a dream to work with. His dam Red Licious 10K has already proven to be such an asset to us and our partners Scott Land and Cattle. She is a tank of a cow with a perfect udder, like her son, is a crowd favorite when people come to tour. We would love the opportunity to continue to promote this bull and showcase him in the future if the new owners are interested. Retaining 50% semen interest, Sniper is a bull we plan to use extensively in our Simmental program.

24M is sired by SVS Betts, a bull who has produced some of the industry's leading cattle in the Simmental breed. 24M has the attractiveness of his sire with a nice hair coat and pretty front end. Moderate in size but big middled and good topped.

PF Cheetah RLP 15X - Dam of Lot 5, 6 & 7

PF Cheetah RLP 15X (picture) 3 direct sons sell. The cow who has done it all for us! The true Angus matriarch of our cow herd. For the past 15 years 15X has proven again and again that no matter how you breed her she throws the same consistency in her progeny. Easy calving and big-time performance, size and power, big time milking females and longevity in both her bulls and females. Cheetah has 28 registered progeny and counting. Her sons have been our high selling calves in all our past bull sales:

- 2024 - PF Viper RLP 34M – Sold to Quarter Horse Coulee Farms
- 2023 - PF Kryptonite RLP 66K- Sold to 4M Cattle Co
- 2022 - PF Jack Daniels RLP 9J- Sold to Abound Livestock
- 2021 - PF Hush RLP 10H – Sold to Arntzen Angus

**5 PF MERIDIUS RLP 10M**  
2358125 • RLP 10M • Jan 22, 2024

The 2024 natural calf out of 15X, 10M has big performance with an adjusted yearling weight of 1443lbs. Big bodied, big framed calf with lots of muscle and good scrotal development. 10M has an excellent foot and leg structure. 10M's Full brother sold for \$13,000 to Abound Livestock in 2022. Great option to put some performance into your calves and longevity into your females.

Two tremendous flush mates here with 1M and 3M. The true definition of moderate birthweights and high performance. These future herd sires carry a ton of rib and muscle on top an attractive presence. Both bulls have big scrotal development. Both bulls are extremely sound, good footed and good structured. 1M and 3M have calving ease and will throw some performance into your calves. These are the type of future herd sires to build a herd around. Out of 15X, these bulls will produce excellent replacement females with tight udders and perfect teat placements.

4M is a bomb proof heifer bull with an actual birthweight of 69lbs and calving ease of +10, you'll sleep soundly at night knowing this bull has your heifers covered. This bull has an attractive look to him, nice head, big middle and thick quarter. 4M is out of a first-time calving Cheetah x Stunner daughter, a young female with an attractive presence and level udder. A female that we are certain will make it into the donor pen down the road. Sired by HF Jokers Wild 198J, a bull we purchased from Hamilton Farms in 2022 to use on our heifers and we have not been disappointed in his progeny and performance. **HEIFER BULL**

Out of a first-time calving heifer, 28M has an 80lbs birthweight and 1400lb yearling weight. 28M is a super eye appealing bull that catches a lot of eyes. He has a pretty front end, big middle, good hair and good scrotal development. A heifer bull with an outcross pedigree on the sires' side, being out of Dalton's Trail Blazer, this was a bull that caught our attention at Hamilton Farms for his look and calving ease. **HEIFER BULL**

It is so satisfying to see a bull stand out the same way his sire did. 6M is pretty fronted, big topped, deep middled and thick quartered. 6M is out of one of our leading donor cows. A powerhouse of a cow with an excellent foot and nice udder. 6M's maternal sister sold for \$20,000 to Southern Comfort Angus at the 2022 Angus Collection sale.

This attractive calving ease bull won't be hard to find! 13M is the result of a flush that crossed a powerhouse Firebrand daughter to Daltons Trailblazer. Although this is the only bull we got, we think this cross worked exceptionally well. 13M was part of our show team last fall and saw a lot of attention for his style, depth of body, thick quarter and awesome hair coat. **HEIFER BULL**

RLP 9K - Dam of Lot 15 & Maternal sib to Lot 14

The Jesse James calves always rise to the top of the pen for their flashy look, fluid movement, natural muscle and quiet disposition. 7M captures his sire's phenotype perfectly. He is stout, solid and presses the scale down hard! This bull is sure to put pounds on those steer calves & keep some femininity in those females. A very productive HF Rosebud cow family backs this future herd sire.

**HEIFER BULL**

39M is another Hendrix son that's hard to miss, pretty fronted, long bodied, heavy muscled, square made and as hairy as they come. 39M is a resilient bull you must give the benefit of the doubt to, we lost his dam when he was a month old and although we were able to get him on another cow, she never really accepted him as her own, therefore 39M really came on after weaning and is now one of the stand outs in the bull pen. 39M's dam was a heifer calf we purchased from Miller Wilson Angus, who was a direct daughter of DMM Blackbird 105A!

Groundshaker is a massive scrotalled soft made bull that has been a stand-out all year. With over 100 registered progeny High Tide have taken our program to new levels and in the right direction. The High Tide calves are big boned, full of muscle and have a great hair coat. They are born with a few extra pounds birthweight but come out with length and calve extremely well. Year after year our most impressive calves with the highest weaning weights. Groundshaker checks a lot of boxes for us and his dam is an ideal Angus cow with a beautiful udder and a highly productive track record. Reserve Champion Sr Bull Calf at Olds Fall Classic. Reserve Grand Champion Bull in Lloydminster.

Red Piro High Tide 897F - Sire of Lot 25

Red Piro Groundshaker 405M - Res. Champion Bull, Stockade 2024

Here's one of the most exciting bulls we have ever raised! Flawless in his structure and phenotype, stands on a huge, impressive foot. A big boned, massive hipped power bull with an incredible spring of rib. Backed by the highly productive Marta cow family that have been very maternal with longevity and high milk production. His Sire, Red Allison Design has left us an incredible group of replacement heifers. Collected for in-herd-use semen.

Design is the youngest bull on offer. Take a look at his incredible weaning weight. Packed full of muscle and style in a deep ribbed and soggy complete package performance bull. His dam has raised some standout calves in the past and this guy is no exception. Dark red power bull with great feet! Recommended for cows.

Genesis is a large framed growthy bull with tons of middle and muscle shape. Backed by a phenomenal dam who raised a son that went to Airam Farms with great feedback on his calves. Maxine 8103F also raised our very top momentum replacement heifer last year. Exceptional weaning weight and yearling weights on this guy. **Heifer Bull.**

Deep quartered bull with lots of mass and middle to him. This guy made lots of friends that toured our pastures last summer. **Heifer Bull.**

**33 RED PIRO MCGREGOR 473M**  
 2379751 • MZ 473M • Jan 11, 2024

I could have 20 footnotes on this guy but I'll keep it to the point. Sired by the great McGregor that was crowned high point show bull last year. Redcaps daughter was the high selling Red Angus bred heifer this last December at Ladies of the West in Innisfail. This guy is stacked full of potential from top to bottom in a heifer friendly package. McGregor 473M and his dam are worth a drive out and taking a look at! **Heifer Bull.**

Red Towaw McGregor 601J - Sire of Lot 33, 34, 35, 36 & 52

Red Piro Redcap 703E - Dam of Lot 33

Dark red power bull out of a Kuruba first calver. The McGregor X High Tide combination sure worked here. One of our favourite bulls in the cow bull pen. Exceptional footed bull with extra frame and length of spine. Our Kuruba cow family has made a huge impact in our program and for many other breeders and cattlemen. Recommended for cows.

A dark red bull that is extremely long bodied with an exceptional foot. Lots of eye appeal to this guy with his smooth phenotype and proud stance. 876F raised our Mossy Oak herd bull we used on heifers and cows last year and they are calving out extremely well! Recommended on cows and larger frame heifers. We have collected in-herd-use semen and will be using McGregor 442M in our own program this spring on cows and a few heifers.

Foundation is a dark and stylish McGregor son out of a first calver. 209K's sister sold last fall to the Allison program at Red Round-Up. A complete heifer bull package with low birth weight and high gains.  
**Heifer Bull**

These Tycoon sons are born easy and grow like crazy. We used Tycoon on big cows to moderate birthweight and it worked great. Glorious Son is an absolute powerhouse stud out of a broody tank of a cow that is always in great shape. Great foot quality on this guy and check out his weaning and yearling weights. Recommended on cows.

Extremely attractive ♂ powerful. This masculine rascal is huge hipped, long spined, stylish fronted. His sire 218K has left us with an impressive group of bulls and replacement heifers that have exceptional growth and presence. Jafar was among the pen of 3 we showed in Medicine Hat in December. Recommended for Cows.

Grandslam is a correct made bull out of a Brewin cow we bought out of Ladies of The West Sale in 2022. Super dark red, stylish and many calving ease characteristics to this guy. One of our personal favourites in the heifer bull pen with a super foot and look. **Heifer Bull.**

Cypress is an absolute powerhouse monster! A long-bodied performance bull with masculinity and character that will add some pounds to your calf crop. We sold his sire to the very loyal Walton family last year after we used him. His dam 523C raised our 218K Coming in Hot herd bull that has sons in this sale and his calves are very consistent with their birthweights and have tremendous growth. Cypress was Intermediate Bull Calf Champion at FarmFair International Last fall. Parent Verified. Recommended for Cows.

4138M is out of one of Dads favorite cows 6152D that has produced phenomenal females. One of them sold last year in the Ladies Of The West Sale. Dam is very squared uddered cow with perfect teat placement and size. Cypress is very complete and has added body capacity, stoutness and overall mass. Recommended for Cows.

Secret is a dark red bull that comes to the top of the heifer bull pen quite easily. Secret's grand dam raised our 897F High Tide herd bull and his dam 741E has become a superb producer with an exceptional udder. Very eye appealing stud with his length of body, dark hide, and proud stance. Parent verified. Recommended on larger framed heifers and cows.

Cypress is a very smooth made bull with lots of muscle shape, dark hided and dark solid foot structure. Dam is very level uddered with lots of milk. Daughters off 4113M should be a dream. Lots of calving ease on both sides of his pedigree. I wouldn't be scared of using him on heifers even with his 90lb birth weight. He is long and smooth made! Recommended for larger frame heifers and cows.

# commercial heifers

## 70 5 RED ANGUS OPEN HEIFERS

### FROM MERV, WANDA AND RYAN TOEWS

These 5 replacement heifers are an even group of late March, early April calves out of first calving PIRO influence cows and out of their heifer bulls. Feminine and long bodied group with ample growth and hair coat.

## 71 3 BLACK ANGUS OPEN HEIFERS

### FROM JORDAN HOOPFER 403-323-0587

A really nice set of 3 black Angus open commercial heifers, born between March 15-April 20 2024. These heifers are age verified, have had Bovishield one shot and 8 way at branding time and again in November 2024. Heifers have been given ivermectin and cylene.

## 72A 3 RED ANGUS OPEN HEIFERS

## 72B 4 RED ANGUS OPEN HEIFERS

### FROM PIRO RED ANGUS

Big mature January/ February born groups right out of the purebred replacement pen. These F1 heifers are out of our very best mother cows that are larger framed and exhibit ideal udder traits. Extremely docile bunch, some of these girls would make great junior projects.

# veterinarian letters

**DIDSBURY**  
VETERINARY SERVICES

Welcome to the first annual Piro and Pieschel Bull Sale! We at Didsbury Vet Services are so excited to work alongside Pieschel's and see the beginnings of their own bull sale coming together.

The great people at Pieschel's do an exceptional job of caring for all their cattle and we have nothing but good things to say about their program.

There is a strong herd health program in place that sets these bulls up for success. Starting with the mother cows who will receive a killed IBR/BVD vaccine, 8 way vaccine and scour vaccine prior to calving. The bulls will have received 2 doses of Bovilis Nasalgen, One shot BVD, and Vision 8 Somnus, once in the springtime and again at weaning.

Prior to the bull sale we will have completed a physical exam and semen evaluation of all bulls offered. Each bull will be assessed to determine soundness, body condition score, and to be free of external visible defects. The semen evaluation includes physical palpation of the internal sex glands, testicles and epididymis and a visual exam of the penis during semen collection. A scrotal measurement is taken to ensure that each bull measures above the minimum scrotal requirements. The semen is evaluated for motility and morphology and all bulls present at the sale will have received a passing grade of 70% or a decision deferred which means they will be reassessed and confirmed to pass prior to leaving the farm.

We wish nothing but the best to Pieschel's during their bull sale this spring and are happy to answer any questions that may arise about their program.

**MAVERICK**  
LARGE ANIMAL VETERINARY SERVICE

Welcome to the first annual Piro and Pieschel Bull Sale! We at Maverick Large Animal Vet Services are proud to share business and long time partnership with the Zoller family. We have been working alongside Piro Red Angus since the very beginning. Piro Red Angus was our Tenth client since Maverick Large Animal Veterinary Services started in 2012.

With great passion and care towards this herd, we have always been impressed with the overall health, body condition, nutritional status, maturity, attractive eye appeal and investment that the Zoller family have put into their program. The Zoller family has always been committed to practicing consecutive herd health protocols. Calves have received Ultrabac 7 with Somubac. The Piro breeding stock has excelled performance and quality, which compliments the bull herd come semen testing time.

Prior to the sale we individually examine each bull, followed by a semen evaluation and then are approved to be breeding sound. It has been a pleasure continuing business with the Zoller family, and wish them nothing but the best this season!
