Bull & Select Female Sale

at the Farm - 1:30 pm

Terry & Sharon

Welcome

We would like to welcome everyone to our 20th Anniversary Sale. Wow, it is crazy how fast the time really does fly – it is already the 20th year since we began selling bulls by public auction. Looking back over the years we are incredibly proud of the progress we have made and the direction we have taken our herd. We are very thankful that we are in this business as it can be very rewarding, and the friendships we have gained are irreplaceable. We are proud of this milestone, and excited to see what another 20 will bring!

We feel very fortunate to raise cattle that we are passionate about. This year's offering is packed with consistency and backed by cows we believe in.

Troubadour 5K is a bull we decided to utilize in our breeding program. He was our high seller to Richmond Ranch in 2022 for \$65,000. The group we have put together that is sired by Troubadour have great hip shape and dimension. They are a little bigger framed and certainly have great angus character and masculinity. They are a group we are excited to showcase.

The Reagan cattle are very intriguing as well. Backed by a pedigree that is definitely interesting, the Reagan's offer an outcross twist to anyone's bull battery. They are all deep dark cherry red and as smooth made as can be. The foot on the herd sire is very ideal also.

As well, we have Judo sons, who are definite standouts again this year and have all the merits you'd expect. The Smack cattle are as consistent as ever, delivering dependable quality. And in the black angus, Four Mile once again captains our bull pen. He needs no introduction. All bulls in the offering will have a complete semen evaluation prior to the sale.

The heifer pen is an exciting group and features – for the first time ever – two black angus heifer calves. We feel we have put together an interesting group that is deep sided and stout, as well as fully functional with nice udder development and stand on a solid foot. These females are fancy fronted, and display as complete of an offering as we have ever put together. All heifers will be palpated before sale day and ready for breeding season.

We invite you to come prior to the sale to tour the bulls or females, we'd love to show you the offering. Coffee is always on.

Please feel free to contact any one of us to answer your questions about the offering. Bohrson Marketing will again be working with us on sale day so feel free to give any of their representatives a call if you have any questions or want an opinion. Additionally, Mark Holowaychuk from OBI and Roger Peters from Peterosa Exports will be in attendance on sale day. The sale will also be broadcast on DLMS if you would prefer to bid online.

We will be very happy to welcome you to our farm on Thursday March 13th. Please join us for lunch at 11:30 and stay for refreshments afterwards! We look forward to showing you our offering.

Sincerely,

Terry & Sharon

Welcome to the 2025 Ter-Ron Farms annual Bull & Female sale. We are proud to invite you to this must attend event on behalf of the Adams' family and our BMS team. Terry & Sharon, Rob & Maureen and the girls have established one of the most respected and sought after programs in the entire industry and it is what is showcased in the pages to come that solidify that along with their customer service and personable demeanour towards their clients.

Taylor Richards
306.821.4169

The Red Bulls you will see in the 2025 offering are arguably the most consistent from sire group to sire group as ever before. These bulls are dark, hairy, soft made with a real sharp, eye appealing look to them. Many are heifer bull candidates that can be used with confidence and many can be used on cows to add pounds and performance. The cowherd at Ter-Ron is extremely deep and productive. They are the kinds of cows you will be proud to have your herd bulls out of with a big emphasis on foot and udder quality and fleshing ability.

Rob Voice
306.270.6082

Although they have been made famous with their red program, the last decade has seen Ter-Ron Farms make a significant splash in the black hided cattle. Their Angus program has quickly elevated them to some of the most exciting black breeders in the industry with the acquisition of some of the most sought after and proven cow families to build around and the utilization of some of the most popular sires including the ownership of the 2023 CWA Champion Angus Bull, Four Mile, whose influence is represented heavily in this years bull sale.

Jaxon Payne
306.830.0456

Again this year is a great set of purebred replacement heifers. These females come from the heart of the herd and are made up of some of the most cherished cow families at Ter-Ron. Here are sisters to the bulls on offer giving you a great glimpse of the maternal side of these sale bulls pedigrees. A great opportunity awaits in this section to add a new bloodline to your herd from this reputable program.

Darryl Snider
780.385.5561

We can't stress the quality in this offering enough and invite you to the farm any time prior to sale day to view the cattle. Give Rob or Terry a call to set up a tour and they would be happy to show you around and talk cattle. Be sure to join us back on sale day for Sharon's famous sticky buns and to take in a great offering of Red and Black Angus genetics. If for whatever reason you are unable to attend or get through the cattle, don't hesitate to give any of us listed from BMS a call as we would be happy to evaluate the stock and bid and buy on your behalf at no charge. We look forward to hearing from you.

Best Regards,
The Bohrson Marketing Team

✓ All bulls will be
SEMEN TESTED
and vet inspected.

✓ **SALE DAY WEIGHTS and**
SCROTAL MEASUREMENTS
will be provided sale day.

Calving Ease Legend

Calving Ease is often related to birth weight of a bull. This is partly true but there are other factors that influence calving ease. The dam and her management are at least 50% of calving ease. Also, the consistency of the birth weights of the sire and dam should be considered. Nutrition, gestation and environment all influence birth weight. We have rated each bull in the sale based on the information we have.

- *** Should produce minimal problems when bred to moderate size first calf heifers
- ** Recommend for second calvers or smaller framed cows 1100 lbs to 1300 lbs
- * Recommend for mature cows 1400 lbs plus

Delivery Options

- A. If you wish you may take your cattle home sale day or within a week and receive a \$100 discount per purchase.
- B. Bulls and Females will be delivered free of charge up to 250 miles, further at cost. Delivery usually commences 2 -3 weeks after sale.
- C. Bulls may be kept at Ter-Ron free of charge until May 1, after that, \$4.00 per day will be charged and animals must be picked up by the purchaser.

***All bulls staying at the farm must be insured by the purchaser - see page 4 for insurance.

- Smack was purchased as the high selling bull out of the Allison Farms Bull Sale in 2022.
- This is our second calf crop and the consistency on bulls and females is outstanding.
- The Smack sons are deep in quality and very consistent with very few throwaways.
- The females are very nice... easy doing, nice skulled, beautiful fronted with lots of substance.

- Judo was the high selling bull in our 2022 sale to Southview Ranch and he has done a very consistent job siring both sexes.
- Sons in last year's sale were well received and were the high selling sire group. We feel the quality he produced in his second year may have exceeded his first year.
- Sons are thick made, very hairy, have added muscle expression, are very easy keeping and the calving ease is as consistent as any bull we have ever used.
- With his Park Place dam and the old 815K cow in his pedigree (which is also one of our all-time favourite cows), he has been our go to bull.
- We feel Judo will have a long lasting, positive effect on our herd and breed. First daughters are starting to calve and they have nice level, high quality udders.
- Owned by Southview Ranch

- Troubadour was our 2023 high selling bull for \$65,000 to Richmond Ranch at Rumsey AB.
- We had some Troubadour semen and used him quite extensively to support our efforts to provide easy doing, calving ease, strong footed cattle with performance.
- Troubadour sons have lots of muscle shape, volume and eye appeal in a dark cherry red colour. The daughters exhibit an abundance of volume and capacity, while maintaining lots of femininity.
- We ended up losing Troubadour's dam, but she was a moderate framed, ideal Angus female. Her udder quality was second to none. We can't wait to get these Troubadour females into production.
- Owned by Richmond Ranch

- In an effort to provide outcross genetics to the Red Angus breed, we purchased Reagan out of the U2Q Bull Sale in 2023.
- Phenotypically he is an outstanding individual with impressive body mass and Angus character as well as a real dark red colour to him that he has definitely passed on to his offspring.
- His dam is as nice as you can make a cow. Look at her picture and tell us how you could change her. The maternal side of Reagan should be tremendous. The bulls are no slouches either!

- When we decided to increase our Black Angus numbers we knew we had to step out and buy a big-time herdsire. We spotted Four Mile and purchased him for \$60,000 out of the Greenwood Bull Sale and he has definitely exceeded our expectations with sons highlighting our sale last year.
- Four Mile can be used on heifers and cows and in our minds, that is a sign of a true breeding bull.
- Sons are born easy, are super stout with a ton of Angus character and are very consistent as a group.
- The females exhibit an abundance of volume and capacity while maintaining lots of femininity. First daughters that have calved have excellent udders with lots of milk flow.
- Four Mile's dam, the 28Z cow, is one of the great cows of the breed with a list of high selling maternal brothers and sisters to Four Mile.
- This second group of Four Mile sons are very impressive and we can't wait for your appraisal.
- Owned with Greenwood Cattle

- Mariner is a super easy keeping breeding piece with low birthweight.
- He is very sound, loose made and typical of the Judos with built in calving ease.
- If you are looking to add depth and volume to your herd this is one to consider.
- Dam is a first calver that knocked it out of the park for her first try. We have high expectations for this good young cow.

- Mohican is a very eye appealing calving ease bull out of our new herd sire, Red U2Q Reagan.
- Very well balanced bull with extra length of body, overall depth, and an outcross pedigree for most outfits.
- Dam is from the famed Diamond Mist cow family and really exceeded all expectations with her first calf.
- As a bred heifer, 40K was Reserve Grand Champion Female at Farm Fair International.
- Real high end bull here that keeps getting better and better with time.
- Owned with TNF Red Angus

- Mohawk is the first son of the \$65,000 Troubadour bull.
- Dark red, calving ease prospect that we hold in high regard. Nice fronted bull with lots of length, depth, and round muscle shape.
- His dam has been a very solid producer no matter how we breed her. One of the first cows to calve year after year and still very sound for her age.
- Maternal brother sold in last year's sale to Eric and Louise Falk.

- Monaco has definitely been a favourite by early visitors. We would agree, he has herd bull written all over him!
- Exceptional length, added dimension, and overall depth in a stout, dark red package.
- Like all the Judos, he is super footed and very sound and should be a real cow maker.
- Dam was purchased out of Red Roundup from our good friends at Wilbar. Judo really crossed well with her. Solid footed, good uddered type of female that is very easy keeping.

- Missile is a soft sided, very hairy, long spined Judo bull with a little more frame.
- We are calving out the first of the Judo daughters and they seem to have level, tidy udders with lots of milk flow.
- Dam is one of the last Real Deal daughters we have left. Bigger framed cow with a solid foot and udder structure that is super deep sided.

- Manchester is an extremely long bodied individual with tons of character.
- His dam is a sweet uddered, big bodied, maternal standout, who is a definite front pasture type.
- His upheaded nature and perfect angus skull demand attention.
- A very impressive full brother sold for \$23,000 to Murray Ranches in last year's sale.

- Sale feature here!! This guy has big time potential and will capture a lot of attention.
- Moderate framed, deep bodied bull who stands on a great foot. Hairy, attractive profile from every angle, wide based, big hipped. All the right pieces to be a major league herd bull.
- The Knifepoint cattle are standouts right from birth. This guy mirrors many of the same pieces as his sire, who sold to Greenwood Cattle and Double RN.
- Mother is a beautiful Tribute daughter with an impressive udder.

- Mustang is an easy pick if you are looking to add an easy fleshing and tanky package to your bull battery.
- This bull will be sure to catch your eye as you tour the black angus pen as his style, presence, and skull shape is captivating.
- We are currently calving out our first Four Mile daughters and they are nothing short of impressive. The influence of Four Mile's Dam, the renowned 28Z cow at Greenwood Cattle, is unmistakable, shining through the quality and consistency of her granddaughters.

 BAR-E-L MAGNOLIA 91E

- The last Four Mile son on offer is 178M.
- He is put together nicely, with wild hair and expressive dimension.
- We couldn't be more happy with the job Stamina did for our program. He stamped out beautiful daughters, and did the same consistent job when he was sold and went to work for Wilbar Cattle Co. 178M's mother is one of those good looking Stamina daughters.
- Great granddam is also the mother to lot 54M.
- Full brother sold to Dale McNabb in last year's sale.

About our Heifers

Once again the heifers in the sale are a select group chosen from some of our top cow families. These heifers are sisters to the replacements we have kept ourselves. Just like the bulls... there isn't a heifer in the group that we wouldn't keep to move our own program forward.

We are constantly working on improving our herd, with emphasis on udders and foot quality, along with strong maternal traits. We have seen the mother of every bull we use.

The females have been palpated for reproductive soundness and we guarantee them to be breeders. Like the bulls, we would like to be the first to know if you have a problem. The heifers are also on a complete herd health vaccination program.

Buy with Confidence . . .

- Youngest heifer in the sale, but the quality is high.
- This female has overall dimension with plenty of mass and middle and a very strong foot.
- Dam is a moderate framed Bazinga daughter with a solid foot and good udder quality. Son sold in the 2022 sale to Broken Cowboy Red Angus in North Dakota.

Terms & Conditions

Bidding: Each animal will be sold to the highest bidder. Bidding disputes: The auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

Terms: The terms of the sale are cash or cheque. The right of property shall not pass until after settlement is made. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the sale facility. Each animal becomes the risk of the purchaser as soon as sold.

Guarantee: We guarantee you a sound breeding bull, if he fails to be a satisfactory breeder, we will replace him with a bull of equal value or credit towards the purchase of another bull. No refunds. Bulls are not guaranteed to freeze semen, if you have any problems with your purchase, contact us immediately.

Insurance: Will be available sale day. All bulls fed for the month of April are at the purchasers risk and must be insured.

Liability: All persons who attend the sale do so at their own risk. Neither owners, clerks, or anyone connected with the sale assumes any responsibility, legal or otherwise for damage of any kind.

Announcements: Changes of information contained in this catalog will be corrected by announcements from the block at sale time and shall take precedence over any printed matter.

Semen: Ter-Ron Farms reserves the right to collect semen on any bull sold through this sale for in herd use only. This semen will be collected at the buyers convenience and seller's expense.

Delivery: Delivery will commence soon after the sale. Please leave delivery instructions at time of settlement.

Certificate of Registry: A certificate of registry and transfer will be furnished for each animal after full payment has been made.

Cattle inspection: All cattle carry permanent ID tags corresponding to sale Lot numbers. All shall be available for inspection prior to sale.

Females: All females are guaranteed breeders. The standard CAA guarantee will apply

The bull feeding program is built to maximize forage utilization, gut health and as a result quality sperm production. Nutritional status of a bull, particularly from the previous 60-days can affect the semen quality being ejaculated today. Sperm production is a continuous process and proper nutrition is critical to maintain peak fertility and longevity of bulls. Bull calves are generally developed on grass with their mom's on a quality mineral program.

Once bull calves are weaned, they are slowly moved onto a balanced TMR. The bulls are challenged with a forage-based TMR to help them develop and express their genetic potential. This is important for consistency of maturation and puberty of bull calves. Sampling and analyzing forages are important for properly balancing the overall ration.

Forage quality and digestibility are important for maximizing ruminal health. Matching suitable protein sources with proper starch with the available forage sources is key to promoting lean muscle growth. The addition of organic minerals are used to ensure proper immune function and overall health of bulls. All of these factors contribute to semen quality and conception within a herd.

If you have any questions about the nutrition program, please feel free to reach out. Buy with confidence knowing the bulls have been developed on a balanced nutrition program.

Best of luck on sale day!
