Welcome

On behalf of Judy and myself, it is my sincere pleasure to welcome you to the 18th Annual Atlasta Angus Bull Sale and Seriously Black Select Female Sale.

My goal as always, is provide a service to you, our customers an opportunity to acquire cattle that have strong maternal genetics, very top end performance and are easy fleshing. They must be structurally sound, combined with the best dispositions we can find. Day per gains off the momma cow are of the utmost importance. Also, it is imperative that our herd bulls and AI Sires have the top end carcass traits in our industry.

This year's sale offering includes 53 of our best January and February coming yearling bulls, 15 coming two year old bulls and 32 of our top end bred heifers.

Nicki Ross, once again has taken videos of our sale offering and with the great help of Dakota Townsend and Cash McLearnie, the cattle were pictured. Her videos can be viewed any time prior to sale day on NickiRossCattleServices.com and at www.DLMS.ca. Mark Shologan and his team will be available sale day to offer you online bidding as well.

A very special thank you to Megan Bond, Lillian Dowel and Logan Stigings for the outstanding job of preparing the cattle for sale day.

Please feel free to call Mark, Roger or myself with questions on the sale offering prior to sale day or stop by the farm for viewing any time.

Thank you very much for your interest and look forward to seeing you on sale day!

Brian

*Seriously Black Female Sale at 1 pm
 immediately followed by the
 18th Annual **Atlasta Angus Bull Sale***

Welcome from OBI Livestock Ltd.

It is our pleasure to be working with the great family at Atlasta Angus this year. I welcome you to the 18th Annual Atlasta Bull Sale & Seriously Black Select Female Sale.

What a set of bulls this year from the front-end right to the back end, very uniform. By using top end A.I. sires and purchasing herdbulls that continue to raise very powerful bull calves are the basis of what you will see this year. The bulls were sorted into 3 pens by sire groups primarily with good bulls in each of the pens. We also have some two-year-old bulls as well to service more cows for you.

The bred heifers again have been hand selected by Brian and I and they are a great set of females, and you get to choose which one or sweep the ring. If only one gets selected Brian will gladly keep the other in the herd. Great opportunity here from the foundation females at Atlasta Angus.

We have been through the offering many times and sure can assist you if you need, so please do not hesitate to call any member of OBI Livestock Ltd. or Brian directly and we will take care of your needs. See you all December 9 at the farm. I will be there the entire day before the sale to answer your calls or questions.

EPD Definitions

CE: CALVING EASE DIRECT - the average difference in ease with which a sire's calves will be born when he is bred to first calf heifers. The higher the number the more probability that his calves will be born unassisted.

BW: BIRTH WEIGHT - expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WW: WEANING WEIGHT - expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires. WW is an indicator of growth from birth to weaning (205 days). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities.

YW: YEARLING WEIGHT - expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MILK: MILK - an indicator of milking ability in daughters. It represents the differences in weaning weight of calves due to the amount of milk produced by their mothers. It is expressed in pounds of calf weaned.

Cudlobe W Growth Fund 23J was a bull we purchased at their 2021 Bull Sale. He is an ET calf from the very popular and marketable Deer Valley Growth Fund. He is sure siring top end progeny anywhere you go. This bull has style, shape, lots of testicle and is very good footed. He bred very well on these heifers. A service that will be very exciting to their new owners. His 2023 calves are featured in Pen 3 in the bull pen.

Atlasta Colossal 106J is a feature bull we sold in the 2021 Sale to Gary Petrshyhn and we kept 1/2 interest and used him on our bred heifers. He is thick topped with extra bone and muscle. His dam has been a really good producer for us. The Musgrave 316 Colossal lineage has been popular across the land because they flat work.

A herdbull we obtained in the 2023 bull sale season from Little Valley Angus, the Bradfords. We have been watching what the Aquifer bulls have been looking like and we knew we wanted to own one. This bull will calve easily but add some extra power to his calf crop.

Another new herdbull we obtained from our good friends at Lazy E Bar Ranching this past spring. We have always liked the Traveler 71 progeny over the many years so felt it was a good move to reincorporate into our program again. He is a major service sire for our bred heifers.
