## Welcome

Welcome to Lone Stone Farms Invitational Female sale. This will be our 7th Invitational Female Sale. Time sure does move quickly. We run a pretty simple event. Our live sale is at our farm located in Westlock County. We are very thankful to DLMS for their efforts in broadcasting this sale all over North America, making it super easy to bid and purchase our animals. Lone Stone is also so grateful to our consignors who have stuck with us and continue to bring out their best females. We could not continue to run this sale without them.

It's been really nice to watch the cattle market this summer and fall. Finally, prices that will allow our cow calf producers the ability to pay their bills and hopefully get ahead. There is no use for us purebred breeders if there is no one raising calves.

Lone Stone Farms is delighted to offer females to you out of our working herd sires. It's truly important to us to sell females out of our top end of the heifer crop. Fortunately, our cow numbers allow us to do that and leave the quality females necessary to keep the program moving forward.

Please come to our sale in person if you can. We love to host people in our sales facility. If you can't attend on sale day, Nathan or Karen will be happy to field questions or talk to Transcon for an unbiased opinion.

- Lonnie & Karen

Welcome from  
*Transcon Livestock...*

Welcome to the 7th Annual Lone Stone Farms Invitational Female Sale, held at the beautiful sale facility at Lone Stone Farms, just 4 miles north of Westlock, Alberta. The sale location is easy to get to and the sale atmosphere is very family friendly. Expect some great hospitality from your hosts Lonnie, Karen, Nathan and Alisha Brown.

This years offering is very impressive, with more variety than ever! All 3 segments of Simmental, alongside Red and Black Angus, make this an unique buying opportunity. You will find most of the females available are sired by walking herdsires. Each consignor spends countless hours seeking out new genetics to keep their herds moving forward with breed leading genetics. Whether you are searching for your next donor female or some elite females to spice up your commercial herd this is a sale you should consider attending. The quality and value is second to none.

Lone Stone Farms, Diamond T Simmentals, KSL Simmentals, Swantewitt/Sage Simmentals and Dwajo Angus are all operations that have very strong bull markets and very successful bull sales. These breeders collectively sell 300 plus bulls per year, the females you purchase here are destined to be bull producers. They are dedicated to providing the best genetics possible to the seedstock and commercial industries.

I strongly encourage you to drive out to Westlock and enjoy the Browns gracious hospitality. If you are unable to attend please give any of the Transcon team a call, we are always happy to help.

See you sale day!

**100% Fleckvieh. Sire Verified.**  
 Fabulous Callahan daughter of a female that came from Dwayanne Simmentals. A cow that has perfect feet and a perfect udder. Yah, I know how many times does one read this in a catalogue. But it is the truth. She is not a cow that will jump out at you in the herd. The above two attributes rate really high on our want list, and 14F has them. There is a reason Grace 95K sits in the Lot 1 space. She is just plain good.

**Exposed Mar 20 – May 14 to  
 RWR Sully 9E (#1211279)  
 Observed bred April 3/23.

 We purchased Callahan as a proved herdsire and went on to use him for 5 breeding seasons. Don't think we could have picked a better Dirty Harry son. This female especially has width over her topline with real depth of girth and flank. Saxony 97K had a maternal great grandmother that we purchased from Wyrern Simmentals that was hands down as deep a cow as you will ever come across.

 Dam of Lot 3

100% Fleckvieh. Sire Verified.  
 So many things about Pilar 79K make me smile. The little bit of white she has gives her some distinction. Her Barbosa Dam is the cow that broke out in freckles on her face as she has aged. Wonder if that's inheritable? This heifer caught pretty early so be prepared for her to calve in late December. She has a structurally perfect front end, that really catches my eye. Can't go wrong owning this girl.

BEE SULTRA 597C - Dam of Lot 4

100% Fleckvieh. Sire Verified. Twin.  
 Ultra 3K comes from a Mateo female purchased from Beechinor Bros. in 2016. She is a moderate framed female as is her dam. Callahan stamped this girl with his color and muscle pattern.

Exposed Mar 20 – May 14 to RWR Sully 9E (#1211279). Preg tested safe to second week of January.

**100% Fleckvieh. Sire Verified.**  
 This heifer comes from a tremendous female. An Oil Baron daughter we purchased from Brad Parker, who has given us 3 females in a row. The first girl was sold in our 2022 female sale to Justin Wagner. This offering is her second calf, even better than last years, in our opinion. And her 2023 model looks to be staying put. Lady 47K is phenotypically as perfect a female as one can aspire to own.

**Exposed Mar 20 – May 14 to RWR Sully 9E (#1211279).

MJB HADRIAN 39H - Sire of Lots 7-9

**100% Fleckvieh. Sire Verified.**

When Nathan bought Astra 29G from Wolfe's Fleckvieh I shook my head. I quickly nicknamed her Space Cow, cause with all the bright white on her I'm positive you can see her from space! But my oh my, she can raise a brilliant calf. Astra 93K is probably the most broody female in our offering. Long bodied female with deep hip. Structurally pleasing with a long feminine neck. I believe this heifer has a bright future.

This girls dam is a female you would not pick out in the pasture. Not big but fairly plain and non-descript. But lurking in her genetic pool is the Baron bloodline, which translates into power, dark color and amazing udders. These 3 traits have really come through in her Lexa 71K bred heifer. Something you can't see in the picture is the goggles around her eyes are almost colored black.

We've been offering Cashmere females in our sale since 2020. There is just so much good in these girls, we really struggle to part with them. Consistency in quality is certainly Cashmeres specialty. Matters not what female we breed him to we get a calf that works. LNK 59C is such a pretty cow, she's got style, presence and a really nice udder. I think her daughter, Lexa 57K has all those traits and more. Don't bypass this girl. Give her a good look.

Exposed Mar 20 – May 14 to RWR Sully 9E (#1211279). Observed bred April 19/23. Preg check safe to that date.

Looking back at this girl's maternal pedigree just makes me smile. Cujo, Adonis, Baron are some of the main reasons she's as good as she is. Adding Cashmere to the equation, her destiny is secured. Her picture is good and that is exactly how she looks. I expect her to add power and predictability to her offspring.

We consider Rhoda 71J to be the best Red Angus female we raised in 2022. So why is she being offered? The short story is we had selected two other top five heifers to be sold but their ultrasound showed they were both carrying twins. So we pulled them out of the sale lineup and put 71J in, cause Nathan said to, end of story. She's a big stout girl. Huge amount of performance. Her dam is ten years old and of note, she has always calved in the first cycle her whole life. I expect amazing things out of 71J.

RED LONE STONE HONEY 35C  
 Dam of Lot 17

Parent Verified.

These next 4 females are the first heifers to sell out of our Hazel Bluff Dakota herd sire. We've used him on our heifers as well as cows. Cannot stress too much how easy keeping he is and his progeny. Honey 35K is built just like her Mama, very deep set female. Her udder looks to be developing four square and small teats.

Exposed Mar 27 – May 14 to Red Lwnbrg Slowburn 224K (#2281672). Preg checked safe to first week of February.

Rosette 10K, if you follow back far enough on her maternal pedigree, goes back to the Saskair Cowherd. My father, purchased 1 heifer calved in 1987 from the Saskair herd and I dare say the Rosette cow line turned out to give us the best females. If it's a Rosette it has power!

I was recently talking to a purebred cattleman friend and was complaining about writing these footnotes. He said to me "Tell me what I don't know about the animal. I can read the pedigree just fine". Of course, he told me this after I'd done over half my footnotes. What you don't know about Honey 29K is that her dam is one of my top 11 females, bringing home well-muscled, heavy calves to wean. She's a real keeper.

Rosette 40K is probably my favorite of all the Dakota females offered, even though they are all stamped pretty much the same. Just love their wide backs and deep hips. Her dam has had a bit of bad luck but all the live ones have been very valuable. 40K has all the genetic potential to be a top end female.

Exposed Mar 27 – May 14 to Red Lwnbrg Slowburn 224K (#2281672). Preg checked safe to first week in January.

Laurie 23K is such a stellar female. Out of our Handsome bull we got from Double C Angus at Foam Lake, SK. Her picture shows her lovely clean lines and long neck. Her dam has a great udder and so will she.

Exposed Mar 18 – May 14 to Red Hazel Bluff Dakota 31G (#2091217). Preg checked safe to middle of January.

# SWANTEWITT & SAGE SIMMENTALS

56403 Range Road 145 Yellowhead County, AB T7E 3R4  
Gerd 780-712-2096 Jordan 780-712-3600  
swantewitt@gmail.com swantewittsimmentals.ca

Welcome back to the Lone Stone Invitational female sale! Once again we are so excited and thankful to be part of this wonderful group of people and offer some of our top bred heifers. The Brown family has been such a joy to work with over the past few years and we are very blessed to have the opportunity to contribute to this sale year after year.

Every year when we pick heifers we really focused on choosing ones from cow families that we love and have similar females to in our herd already. It's always a struggle as they are all heifers we would happily keep but we also love sharing some of our very best ones that are a true representation of our herd. You'll find a variety of horned and polled females in our offering. Most heifers are bred to our polled Swantewitt Haiti 40H service sire who has a great calving ease EPD and worked really well for us last year. His calves weaned off phenomenally and we were super happy with how he crossed with our heifers. We also have a small handful bred to our Swantewitt Kalo 28K sire going back to FGAF Guerrero. We sold Kalo in our sale this past spring but have been fortunate enough to be able to use him for a few of our heifers as we really love his coloring and the thickness in his pedigree.

All heifers are on a full vaccine and deworming program having received Express 5, Presponse HM, Covexin, and their first dose of scour guard. They have also received a pour on for parasites.

## 22 SWANTEWITT KLARE 262K

Full Fleckvieh.

Klare leads the group off as she is just such a classic beauty. You have to appreciate her coloring, style, confirmation and nice temper. And she's smooth polled! Don't let the white spot in the picture fool you, that's just a pigment mark. Her dam is a dark red solid bodied cow who produces well in our herd each year. We are willing to part with Klare as we calved out her full sister last year and she's working out wonderfully for us. You really can't go wrong with these genetics and this lady. She's the all-around full package.

Exposed to Swantewitt Haiti 40H (#1312567) March 23, 2023- May 30, 2023. Preg checked safe to early/mid January calving.

Here's our other smooth polled, Keet's Furtive daughter on offer. We also have a full sister to her who weaned off her Haiti bull calf this fall at 835 lbs as a first calver! These girls are full of performance with a nice frame size and good pigment. The dam has a perfect udder and moves out well and we have found our Furtive daughters to be extremely maternal with good milk. She's bred to the dark red Kalo 28K bull. Karat is a female truly full of potential.

If you're looking for depth and thickness, look no further. Kitty has it all! She is dad's favorite heifer in the pen due to her dark liver red coloring, solid goggles and just how thick she is. Her dam has given us a few heifers for our sales and also a few for our own herd. One of her granddaughters just weaned off a 900 lbs Director's Cut bull calf this fall! We have quite a lot of granddaughters in the herd today. The Bunny 160B cow will be pushing 10 years old this winter and she is not slowing down. Her udder and feet are perfect and each year she is completely trouble free. She has the performance and the Sully 38G bull has the muscle so this combination really worked!

Exposed to Swantewitt Haiti 40H (#1312567) March 23, 2023-May 30, 2023. Preg checked safe to early/mid January calving.

Kandy has been a favorite in the pen for awhile. Jordan took her and 3 other heifers to a 4-H Multi Card Judging event this spring where she quickly became the top pick of the pen. She just has so much thickness and carries herself in a way that really catches the eye. On top of that she is also smooth polled! Kandy has loads of hair and that muscling that we often see in our Gilbert daughters. Her dam was a first calver and what a great job the Haleta cow did on her. Now this year Haleta has weaned off another calf who is over 800 lbs. You can see her dark red solid coloring in the picture of her with her current heifer calf. We look forwards to seeing what Kandy will do in another herd and think she has a lot to offer.

Exposed to Swantewitt Haiti 40H (#1312567) March 23, 2023-May 30, 2023. Preg checked safe to early/mid January calving.

Welcome to the 2023 version of the Lone Stone Invitational Female sale. We are very exciting to join our fellow consignors in this year's sale. We are always humbled by the kindness of our amazing hosts and everything they do to make this sale a continued success year after year. Thank you again to the Browns, you go above and beyond and your love for this industry doesn't go unnoticed! This year's offering of KSL heifers is a rock solid group of 18! Our cow herd is continuing to grow so we find selecting big groups of females becoming easier and easier. The quality of these females continues to improve and we are so excited to offer them to the industry. The offering of red and black females has grown and as much as we love our fullbloods, these purebred ladies are one impressive set. The line up of heifers coming to this year's sale really does make the Lone Stone Invitational Female sale a one stop shop for high quality fullblood and purebred Simmentals genetics as well as high end angus females. We look forward to seeing you all in Westlock in November and can't stress enough to find the time to attend in person. The meal is second to none and lunch will leave you feeling like you've never had a hearty home cooked meal so delicious. With Covid in the rear-view mirror lets get out and celebrate what this industry is all about, top end cattle and world class people.

Excited for sale season, Cheers  
Keegan and Brad

One of our personal favourites in the fullblood division, Cherry Bomb is the BOMB!! She is thick and stout, while being loose made and well balanced. Her colour, hair coat and pigment is perfect and is dropping a perfect udder. Her mother is a stunning young Sonic female that produces like none other. We sold her sister last year to Larry Vansickle of Nolara Farms. Larry always buys the good ones, if we aren't having to bid against him at other sales he always seems to pick our sale features to add to his program. Cherry Bomb goes back to another one of our flush females Big Sky Conqour, a powerhouse Jeremiah female that has left a lasting impression on our herd.

Exposed to Keets Ferrous 26F March 20, 2023 to April 30, 2023. Preg tested for early January in vets opinion.

JNR BULLSEYE - Sire of Lot 35, 42

KSL GIGI 69G - Dam of Lot 35

This eye catching polled fullblood has all the bells and whistles, from her dark colour pattern and pigment, to smooth design. Brenda IV is the fourth edition of the Brenda cow family and we couldn't be more pleased with her. We sold a full sibling to 100K's dam in this very sale as a high seller in 2020 to Ferme Erisa in Quebec. These polled Ferrous daughters are worth their weight in gold, they seem to cross well with many different mating's and be extremely user friendly. They are moderate made and put out big time production, they have very tight tidy udders and milk well weaning very impressive calves. Bred Jesse James the possibility of a stunning homo polled calf is very high and extremely exciting!!

 One of the two extra age bred heifers on offer Jenna is smooth polled, loaded with pigment and smooth made. Extra neck extension and tidy fronted, 117J has an exceptional hair coat and coloured red right to her hooves. Her granddam is one of the foundation Crossroad Farms females we bought and at 11 years old is still producing strong. One of the strongest udder cow families on the farm Jenna is following in those footsteps as she is dropping a gorgeous one. With the chance of a homo polled Jesse James calf in her belly the return on investment here is exciting to say the least.

 Jessie Jay is one of the deepest bodied, soft made females in the offering. Extra age, extra thickness, and had that extra time to develop into the broody ferrous female she is today. These extra age females have grown out slow and steady and we love being able to see them develop. They seem to turn into high end productive cows. We have been focusing on polled fullblood females in our may calving program for years, and these females are not second cut. They are held open over to the March breeding season so we can offer them to the majority of the Jan. calving registered industry. Bred way along to Jesse James this female is an exciting one. She checks all the boxes and were excited for what she has to offer.

Our son Nixon's heifer in this years offering, Kara is an Artist daughter out of the heifer Nixon bought from John Gillan of Antrim Simmentals. We just loved the body and type that the Hannah female had at the Season Wrap Up sale in Manitoba, and saw the perfect opportunity for Nixon to buy a very kid friendly female from a breeder we admire. He was over the moon to bid on Hannah himself and get his picture with John and his new heifer. Hannah laid down and gave Nixon this fancy polled fullblood heifer, with a moderate frame, great hair coat and awesome eye appeal.

Sire of Lots 40

The only Hunter heifer of the group, Kamila is a beauty. She is powerful and sleek made, with depth of rib and great width. She is backed by an awesome cow we purchased from Keets Simmentals at Equation. The Edwynna cow hasn't missed a beat since we bought her and is shaping up to be a top producing female. We sold a daughter to JEM Simmentals through this very sale and kept an amazing Big Sky Duke daughter for ourselves. These females are perfect uddered and are hard working. The Hunter calves are really impressing us with their growth, uniform colour pattern and marketability. Bred Ferrous her polled calf will be one to watch.

Keri is my favorite out of the 3 sisters, I really like her dams bloodlines with Big Rig and DT 313C families which are very strong and reliable animals. Her sire Thorn is very consistent in what he does, you sure can tell with the 3 sisters. She is bred for an early January baby to Kodiak 174K. You may be lucky enough to get a homo polled baby out of one of these 3 sisters.

Exposed to Diamond T Kodiak 174K (#1389744) from March 18 - June 3, 2023.

 dwayo@telusplanet.net    www.dwajo.ca

Well this year has been a busy summer Jesse and Miranda got married in Aug and the cows were also invited. The kids are a great help with the cows and they enjoy them as much as we do .We bought a variety of selection for you to choose from 2 blacks, 2 Reds and 2 Purples ( Black Red Carriers) and some neat old Genetics By AI Everblack Masterplan 007 and Red Dwajo Sundance 114A and some of our new herd sires for breeding Duralta 8020 By Design 123K and Red Dersta Roughrider 225K. So something for everyone if you have any questions about our offerings please contact any of us from Dwajo Angus.

Duraba 100K is what they call a purple these days, 100K great-grandam is a Elite dam with some old proven pedigrees Zama Pine and Leachman Righttime. A good sized who is in the top 10% for YW EPD. The sire Favor is a bull we bought from Lauren Red Angus as one of the lead off bulls at their bull sale he leaves off spring that are docile , volume and nice udders. 100k is a real good functional female that could leave you a nice red coupon.

Exposed to Red Dersta Roughrider 225K  
 April 16 - 30, 2023 and to  
 Jupiter DFCC 119J May 30 - June 30, 2023.  
 Due the beginning of February.

25K is a tough one to let go she is nice fronted, lots of volume and a topline you could play cards on. The Pride cow family are good footed with exceptional udders. The sire Sitz Major 707F is in the top 15% for BW and 2% WW and 6% for yearling EPD. 5k is no different 78lb BW and a WW index of 104. Good replacement type female .

AI to Everblack Master Plan 007, some old genetics could be an interesting coupon.  
 Exposed April 16 to June, 2023 to Dwajo Hostile 110J. Due mid January.

Our youngest heifer in the sale and last chance at a Crossfire female. The dam is a young cow with Really Windy and Cudlobe Focus in the pedigree which make good females. The Crossfire bull we purchased for his good foot and the dam had lots of volume and a good udder all things we look for in good usable cattle.

Exposed to Duralta 8020 By Design 123K April 16 - 30, 2023 and to Jupiter DFCC 119J May 30 - June 30, 2023. Due the beginning of February.

5K is not big in stature but is made right, deep sided dark red and setting down a good udder. The Leah cow family has been at Dwajo since 2005 the great grandam Leah 26A has achieved Premier dam status at the Canadian Angus Association. The sire of Leah 5k is well known AI sire Duff Red Blood who leaves females fancy and functional that do well in show ring or the front pasture kind.

AI April 13 to Dwalo Sundance 114A. Sundance semen is sold at Alta Genetics being a curve bender at below BW EPD and top 4% for WW & YW. Exposed to Red Dersta Roughrider 225K Apr 16-May 30, 2023. Due the end of January.

103K Lucy comes from cow family that we started our Reds IN 1993 with Tred Claysmore Lucy 11B. The Lucy cow family has produced good momma cows with good udders, good feet and lots of milk and longevity as the grandam is still working in our herd. The sire Specialist has worked well for us producing good functional females and our High Selling Bull Red bull at this years bull sale to James Epp. Good replacement female.

Exposed to Red Dersta Roughrider 225K April 16 - 30, 2023 and to Jupiter DFCC 119J May 30 - June 30, 2023. Due the beginning of February.

## Terms & Conditions

**TERMS** - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Transcon Livestock Corp and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

**BID** - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

**SALES TAXES** – Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

**DISPUTES** - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASER'S RISK** - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

**INSURANCE** – Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

**US BUYERS** – There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

**CATTLE PICTURES AND INFORMATION PROVIDED** - The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

**ANNOUNCEMENTS** – All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**CERTIFICATE OF REGISTRY** - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

**SHIPPING** - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

**BREEDERS GUARANTEE** - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

**EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

**HEALTH** - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

**EMBRYO & SEMEN** – Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

**ACCIDENTS** - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**RIGHTS AND OBLIGATIONS** - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

**TRANSCON LIVESTOCK CORP. IS AGENT ONLY** - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
