Here is the fundraiser heifer; she is out of the Allandale Natural Law bull as well she is very well made and this cross is one, I am very happy with. her dam has raised some really good bulls that are usually first to leave in the spring. We are very honored to supply this year's fundraiser female.

## OBI WELCOME

Once again it is my pleasure to invite you to the 45th Annual Northern Select Sale. The cattle industry has never been higher and there is so much optimism out there.

No better feeling travelling around and seeing all the great Northern Select animals across the land. We always have said, this Northern Cattle know how to produce, and the proof is out there. Many females also have been shown successfully over the many years. Congrats to all the Juniors that have been purchasing cattle through this sale.

This year again, the consignors have let me dig deep into their herds and you will be able to analyze them. When going to each operation I discuss game plans for this sale and the future of their marketing and promoting and then we sit and negotiate which animals will do that for each program. We all welcome the new consignors and some that have been here before.

We will again be doing an Open House this year from Friday 2 PM to 5 PM where all can come to the CRE to evaluate the cattle and then come for some Northern Hospitality at the Hotel and Casino that same night.

I would like to thank again the club and all the supporters of this event last year; your commitment and loyalty in this sale is second to none. If any member of OBI or Myself or the sale staff can assist you, please feel free to call us. See you in Camrose on the 18th.

 EVERBLACK DUCHESS 126M

**SERVICE: EXPOSED FROM APRIL 13 TO JUNE 10 TO GOLDEN OAK 267F TRIBUTE 240K. DUE MID-JANUARY.**

Everblack KB Duchess 45K is a tank of a female. She is wide across her top with massive spring and depth to her ribcage. She already looks like a momma cow who's ready to get to work. 45K is a carbon copy at this age of her full sister JZT 21J pictured below. You could not create a more level udder and straight underline than 21J, who while photographed was working hard raising her first calf on grass this summer. We are sure happy with the way the BAR-E-L Stamina bull has turned out. He has placed progeny in numerous high end purebred operations, as well as producing exceptional stock bulls for our excellent commercial customers. 45K is bred early to our newest calving ease sire Golden Oak Tribute. Aside from being a very attractive, smooth made bull, if you study his pedigree, it is second to none. With Tribute on the top and the Erica/ Napoleon combo on the bottom, this will be a very exciting mating.

 KMK DONNA J311

**SERVICE: EXPOSED FROM APRIL 18 TO JUNE 10 TO U2 ACCLAIM 144G. DUE EARLY FEBRUARY.**

Everblack Donna 48K is a real sweetheart of a female. She has a beautiful front end, with a nice rib shape, and a ton of hair. She is extremely sound in her makeup with all the correct angles. Her sire Sixmile Showtime 80H is built the same way, incredibly sound. He commanded a \$63,000 valuation in the spring of '21 and his progeny are really starting to hit their stride now. You will see many offspring from him in the next few years coming out of our program. Donna 48K was at side of her dam in the summer of '22 when they were a class winner in the Vermilion Fair pen show. If you have been to this show, you will know that is no easy feat as there are some tremendous cattle operations that exhibit in Vermilion. Due early February to our Coleman Bravo son, U2 Acclaim 144G. He has turned into an exceptional calving ease bull, siring moderate, well-musclcd, useful cattle.

HRH Countess 74K is a deep broody heifer that has great feet and is so easy keeping like all the Resource daughters. Her dam is a beautiful wedgy shaped cow with great phenotype and was specifically picked when Resource semen was finally found. Countess 74K also has great performance to go with that broody cow look and will perform as good as she looks. There are not many direct Resource daughters for sale these days, so take advantage of the opportunity while you can. Countess was bred to KG Justified for his great calving ease while providing abundant muscle and mass, great carcass numbers and being a major foot and udder improver. A very neat coupon in this heifer here.

**SERVICE: A.I. ON APRIL 5 TO SAV FINAL ANSWER 0035. EXPOSED FROM APRIL 20 TO MAY 26 TO HR HAHN STORM CENTER 69J. SAFE TO A.I. DATE. DUE JAN 12.**

HRH Tibbie 78K is one of our cherished direct daughters of Bar-E-L Natural Law 52Y. And she is out of one of our very best, predictable old mainstay cows, HRH 52A. All of 52A's sons have been working in either commercial or purebred herds, including one used here. And the few daughters she has given us are great. The grand dam to 78K has 42 progeny to date and proves the fertility and longevity of the Tibbie family. HRH 52A herself is a broody yet smooth fronted and nice headed matron and has been very well received by visitors. And like her mother, we feel 78K is a real herd building type of female, with a great foot, and a solid udder coming down, we are sure she will become a future foundation cow too. Maternal strength here for sure! .... And she is bred to none other than the maternal legend SAV Final Answer 0035. A very marketable coupon in her for sure.

Here is a female that defines the Rise females in our program. They are angular in their design, big middled and expressive over their top. She should drop an ideal udder when the time comes as well. Combining breed greats such as Rose 918, Resource, and TC Freedom back in her pedigree makes for a unique recipe. Bred (Ultrasounded Safe) to Pedersen Honorable 10H a Natural Law son that was a past high seller in our bull sale to Davidson Angus and has done a terrific job for us as well.

**SERVICE: EXPOSED FROM APRIL 15 TO JUNE 30 TO EASTONDALE ENDURANCE 47'22. DUE EARLY FEB.**

A well balanced, attractive made female, one that is feminine through her front one third yet exhibits ample base, width and dimension. We feel she will enter production in a stylish fashion much like her dam 28G that we plan to drag around this fall at a few shows. Boni Gal 28G and her daughter have already began collecting a few division wins this summer for Quinn at Showdown and the AJAA show. She is bred to a new herd bull from Eastondale Angus that is a huge calving ease bull with explosive weaning and yearling weights. Due Early Feb (Ultrasounded Safe).

Once again, Annie 39K is proof that "Northern Select" cattle work. Her Dam, 126Z, was purchased as a bred heifer through this very sale and is still working in our herd. This great footed, bred heifer has frame, shape, depth and is setting down a nice udder. Her sire, HF Roper 27F, is a massive-made curve bender out of a great uddered donor dam, HF Rosebud 246Z. 39K is carrying an early service to LFE Best Answer 800H, a Final Answer son out of a Coleman Bravo daughter who combines proven calving ease with growth. This combination should lead to a profitable return!

Here is a female we think a lot of. You will love her for the amount of body and substance she has. 32K is long spined with a substantial amount of rib that really showcases her overall capacity and width. Just like her dam she is laying down a beautiful udder and has that angus head that really catches your eye across the pasture. We cannot say enough about the Hollow Point females, they are at the top of the heifer pen again this year. We bred 32K to PF TJL HENDRIX RLP 8H. We love this bull for his depth and shape and overall dimension in combination with his excellent stride and great feet. This is sure to be an exciting cross come 2024.

Well, when you see this young lady, you might think we are losing our mind's on offering her up. 2K is a very well put together female out of a very strong and consistent blood line. 2K is out of our Empire cow family, her dam just gets it done every year with top end calves at weaning. If you're looking at her pedigree you will notice 2K's dam is 11 years old with another whopper heifer on her this year. 2K's sire is JCK Covert 003G from John and Kathy Cote. We saw this fella as a calf and were very impressed by the growth he had as he matured into a herd sire. We heard that John and Kathy were offering up some semen on him and had to buy some. Needless to say we are extremely happy we gave him a go. 2K is safe for her AI to Atlantis 8060, a bull we heard about from David Hepburn as he was touring our herd last summer. We started doing the research on him and figured he would be a great match with this bloodline. All the Atlantis 8060 progeny we have seen look fantastic. We are very excited to see what 2K can do with this breeding.

 HF TIGER 5T  
 GET-A-LONG COUNTESS 1130

**SERVICE: EXPOSED FROM APRIL 28 TO JUNE 15 TO RLP KINGDOM 35K. OBSERVED BRED MAY 1. DUE FEB 8.**

This easy keeping daughter of Rainfall is out of a first calver who traces back to one of my foundation Angus cows. The grandmother 10Y always weaned top end calves every year. Mother 59H has another front pasture prospect again this year. I think 2K will carry on the pattern set out by her mother and grandmother. She is bred to RLP Kingdom 35K who is a Musgrave Sky High son out of a HF Tiger 5T daughter from Pieschel Farms. He boasts a +10.5 calving ease EPD. A full sister sold in The Ladies of the West sale for \$22000 to MWC Investments.

**SERVICE: EXPOSED FROM APRIL 28 TO JUNE 15 TO RLP KINGDOM 35K. OBSERVED BRED MAY 6. DUE FEB 13.**

This Rainfall daughter is from a first calf heifer that traces back to a cow purchased from LLB Angus. 592X is still walking the pastures here at 13 years of age. Being a daughter of Rainfall I expect 8K to become a top producing cow, who is going to have an exceptional udder. Kingdom was purchased from Pieschel Farms at the Red Deer County Bull Sale. He has a +10.5 calving ease EPD.

An outstanding daughter of our walking herd bull Hush. A female that comes from the great Baranda line that is becoming one of our best female making cow families in our herd. 17K displays so many of the highly sought after angus characteristics with her length and depth of body and femininity. Probably one of our very best bred heifers we have offered to date. Another Baranda female we are selling in our Up the Ante female sale will be shown with 17K at Farm Fair.

Here is a bred I am very proud of. She is out of our herd sire I purchased from Allandale. He has made a great impact on our program, and I absolutely love his females and bull as the standout when you walk in the pen. her mom is becoming one of the top females in our program. These females she makes are just like her momma's females all have the same great picture-perfect udders. She goes back to the great Allandale Mcherry cow I purchased out of the KBJ Dispersal Sale.

Flora 41L is truly a complete package female with a nicely balanced set of numbers. She is moderate framed, elegant but stout, square hipped with a beautiful hair coat. We really wanted to showcase a female to show what our Syndicate daughters are doing and here she is. Her dam, 47E, is a member of the Flora Cow Family who has deep roots in our herd. Her sire, Crawford Guarantee 9137, has given us an impressive set of offspring with a son and daughter both sold in last year's sale and females retained in the herd. This attractive heifer has been a dream to work with and will be a fun one to show...maybe a junior project?

Geis M'Brook Lass 20L is a high-performing female showing a lot of foundation female characteristics. She's easy doing and is developing muscle shape correctly while maintaining attractive feminine characteristics. 20L is a spitting image of her 5-year-old mother, Merit M'Brook Lass 8064F who was our choice lot coming from a staple herd at Merit Cattle Co. She has been a high-quality production female in our herd that has developed excellent progeny for our program, including Geis M'brook Lass 15K who was one of the leadoff heifers in the Northern Select Sale in 2022 sold to HR Hahn Cattle Co. This family line of performance females that are easy doing, good milking, sound, females that will prove themselves in any operation. Her sire, HF Mastermind 98H has thrown an excellent calf crop into our herd this year, with excellent feet and attractive attributes with optimal performance.

 SILVER KNIGHT SARAH 19S

Blackbird 7L is a moderate sized heifer with tremendous depth and thickness over the top. She is the first and only daughter to sell this year from her sire Bar-E-L 0807 Cry Macho 108J. Cry Macho was the \$28,000 high selling BC Robust 0807 son in the 2022 Bar-E-L bull sale. His heifers are exceptional, that is why she is the only one I am willing to part with. This heifers dam is also sired by another great Bar-E-L bull, who goes back to HF G-Man 29B. All of the females in our herd that go back to this G-Man sire are stamped with great feet and udders. I would expect that Blackbird 7L will be no different.

Good things come in small packages. This heifer is exactly that. She is smart, sassy and sophisticated. She is wide topped, big hipped and has an adorable face with big brown eyes. She comes out of a damn good dam. 102J is one of my top young cows coming into the spotlight. She is a pretty cow with a perfect udder and feet. The Erica cow family goes back to my original cow 27N. I now have 10 Erica's in my herd all going back to that original cow. I would not be selling her normally, but weddings are expensive and I'm still financially recovering from my wife's expensive tastes. So, Mark took full advantage, in a moment of weakness and took her.

 WERNER FLAT TOP 4136  
 CAJUN TD FANCY 8D

Out of a Sydgen Enhance two-year-old, Cajun SR Fancy 5L is a stout thick made daughter of Sitz Resilient 10208. Starting out at birth at 78 pounds has definitely not impeded her growth as she weighed 750 pounds on September 28th. Carrying very a well-balanced profile with a wide flat top line, 5L is fluid in her movements. The Fancy cow family has been a mainstay at Cajun with the purchase of her family matriarch in 1978. The females of this family have consistently produced functional productive females. Over the years, several females of the Fancy family have been sold through the Northern. The power in the cow family hints at a productive female who will produce calves throughout the coming future.

Ellingson Three Rivers 8062 was employed to provide power and frame as our commercial clientele felt that these attributes were becoming difficult to find in the spring Angus bull offering of late. Three Rivers delivered in spades while his bull calves show power, frame and phenotype, the bonus is his daughters. Feminine yet they display growth with style. Cajun ETR Lady 7L, whose dam is a Paintrock Trapper out of a SAV Renown, caught your eye early. Very well balanced, she sports a sweet front end that transitions to a long body with depth and rib and a stout well muscled hip. Starting out at 88 pounds, 7L weighed 788 on September 28th. Unique pedigree, sweet phenotype and impressive growth, it will be difficult to match this offering this fall.

This Final Answer heifer is as proven as they come as a direct daughter of Final Answer 0035 she's got cow written all over her. A heifer with superior structure, femininity and smoothness to back it all up. 9L comes from a cow that is admired in our program for udder quality, growth, temperament. Evening tinge will be a herd builder you don't want to miss.

17L is a female that will catch your eye in the pasture or the show ring. She's as long as they come and even wider yet. Rib shape, muscle mass, and extreme style from our first Blackbird mating of ET calves. Coming from a line of brood mother cows and udder greatness this heifer is one that we cant wait to see what the future she holds. Sired by JMB Traction, grandsire of Schiefelbein Showman that has had success in many operations this heifer is stamped the same way. A great female that will add to any program. She was shown at the Barrhead Beef Bash with great success.

Exciting pedigree with 19,000,000 and the great Beauty cow family. The top high selling bulls we have sold through the years have stemmed from her grand dam and dams maternal sister. 9L is long as can be with a really long fancy front end with lots of depth and growth, if you want one to raise herd bulls that top your sale this girl will provide that. Maternal sister last year was one of our top bred heifers selling to Wooden Spoke Cattle Company in Saskatchewan.

This Female is one to stop and take a look at! She is big ribbed and has all the makings of a great cow. Her Dam is a big broody cow that still maintains her feminine qualities, she is packed with performance and this heifer calf is sure to produce the same way. The Sire is a Bull we Purchased from Pedersen Livestock. He had brought many great qualities to the table for his offspring, offering depth, length, and a large correct foot. We are confident that this heifer will become an asset in anyone's herd.

The EILEEN cow family has stood the test of time and selection in the BLACKTOF herd, going back to the 1980s when we purchased heifers from the Kennedy Brothers at Islay. 15S sired the \$37,000 bull from Sealin Creek Ranch to Z Bar Angus. 26K was the main herd sire at Corvallis Angus with many selections going stateside from their production sales. Also in her background are the strong pedigrees from the Angus Acres herd. There will be longevity in this young female that will keep you in business.

19L is an eye-catching heifer that will also do well in the showing. Her mother 217D has been a very successful purchase from the Ranchers Choice Dispersal. We have 1 male and 5 females all retained in the herd. Her sire, 46G, has been throwing offspring that are long, long, long. Joe Erdell would have classified him as a dominant sire. Straight Canadian pedigrees are becoming very popular, some ranchers in BC and AB attribute this to their sound structure and maternal traits.

Lassie 56K has been a standout since being born. Her donor dam was the top selling red female in the historic KBJ Dispersal and has surpassed all expectations here. She has absolutely perfect feet, and great udder, and is very quiet. She has also flushed well, further showing the fertility in the family. Three maternal sisters to Lassie have sold to great operations including Pedersen Livestock and DC Angus, and there are three brothers currently in commercial herds, as well as the infamous brother, Red KBJ Rock 983D who has been used in many top herds such as Soderglen, Duralta, T-K, Hawkeye Ranching and the Jensen's. This heifer has all the proof you will need when looking for a predictable female. The homework is done, buy with confidence.

Well, here is a rare opportunity for all you to have a look at. Over the past 4 years we have really dived into bringing in some new fresh genetics to our forever lasting females. This young lady here is a prime example of just that. 11K is a Red Bear daughter out of our Babs cow family, the Babs cow family goes all the way back to some of the starting females we had in 1993 talk about maternal strength here. 11K's mom is also an elite dam in the angus industry. 11K also happens to be a part of the very first calf crop in Canada from the impressive Red Bear bull; he really did stamp his easy calving with tremendous growth onto his progeny. We are very happy we made the decision to use him. 11K is clean fronted, big hiped with beautiful teat placement. As an added bonus she is safe to her AI breeding RREDS BLUEPRINT H001. BLUEPRINT is a bull we sourced out as we were looking for something unique to breed to our red bred heifers. This coupon will also be some of the first in Canada. So, if you are looking for something new and fresh, she might be the one you're looking for.

This beauty is what we've come to expect from our Continental daughters, a super correct, good footed, attractive female that is developing what's sure to be a great udder. She will be the real deal, a true brood cow with an excellent skull, extra neck extension and lots of capacity. Out of a powerhouse of a momma cow we bought in Glesbar dispersal. This cross has really turned out as 230K has the best qualities of both her dam and sire! If you are looking for extra growth without sacrificing looks or maternal qualities, this is your girl.

 DUE JAN 5.**

247K is sired by our home raised herd sire Statement. In just his first calf crop we have been impressed with the performance, big-ribbed, foot structure, and docility that he has passed along to his progeny. We kept Statement to have a walking bull off the great Red DMM Mission 94A as when we saw Mission as a mature bull on pasture, we were blown away by his muscle mass while still offering a calving ease option. Statement is also from one of our top herd bull producing cows, Thelma 84Y. We have walked two sons of hers now, her influence was also seen in our cow/calf pair in Red Round Up. 247K comes from a no miss cow family, combined with Statement and Bazinga will make for a unique female in the making. The mating of Outcome to these Statement females has me quite excited, as he is a dark red calving ease option and I feel that the Statement females will give the progeny that extra jam and performance.

 EXPOSED FROM APRIL 4 TO JULY 12 TO RED GOAD THE COUNT 328'22.  
 DUE JAN 5.**

The saying "Big things come in small packages" definitely rings true for 282K. She's a powerful, performance based, big ribbed female in a moderate package. 282K combines our top 3 donor females. Thelma 84Y, Dana 3U, and Miss Sodak 137L (Reba) these females have all made a huge impact on our herd in the last number of years and we have flushed all three of these females, to keep their genetic influence going strong. 282K could be the very first female that has the influence of all 3 of these dams in her pedigree. We feel that she is the type that will be able to raise herd bulls and replacement females that you want a whole herd of. We used Outcome on our heifers this year as we really like his dark red colour and the calving ease option that he offers. The unique part about Outcome is that we have seen his paternal grand dam and grand sire in Texas and can't wait to have the influence of both of them in our herd.

Here is a bred I have like from day one. she has stood out in front of the rest of the pack. From tours of people coming over they have really liked the way this female as turned out. She is out of the Lucky 7 bull we purchased back in the spring of 21. He is a bull we have enjoyed using. He stamps his calves with length and body. Her dam is a moderate great framed with great feet and udder qualities to her. She is hard to let go that is forsure but you are going to be very happy with what she can do for you.

**SERVICE: EXPOSED FROM APRIL 23 TO MAY 10 TO RED RAINBOW ZODIAC 29J. DUE EARLY FEB.**

Here is a female from the heart of our bred heifer pen. Cassie is a female we strive for which makes it hard to part with. Cassie is a moderate package with depth of body and is sound in her makeup. 22K may not be show fancy but she will make a great brood cow. Cassie has been exposed to Red Rainbow Zodiac 29J which she has been confirmed safe by ultrasound with a heifer calf. This female has a bright future.

Red Cinder Acute 417L is a smooth made daughter of Red W Sunrise Banknote 284G. Her mother was purchased from Bar 4A dispersal, and she hasn't disappointed us. Bought sight unseen Acute 117B is an ideal cow in terms of structural makeup, and udder design. 417L is extremely quiet and an easy keeper she will just keep on going raising great calves like her mother. An honest female with a tremendous future ahead of her. Junior approved.

 RED ROYAL TOGNO FREYJA 156B

Our herd is predominately Freyja's at this point, I think that speaks for itself. This female is so good on paper and in person. Her full sib sold to Gus Reid out of the Red Roundup sale, since taking her full sib 929K back with them to ON we've heard nothing but positive feedback on the development of the female. Freyja 929L also happens to be a granddaughter of the immortal 29M female. This is one female that has look and integrity, big barreled and angular. Will be showcased at Farm fair. Quiet from the first time she wore a halter, junior approved.

Red Cinder Biebird is a deep ribbed great footed calf with a tremendous pedigree. A daughter of the Red W Sunrise Banknote sire, a bull that has been raising easy doing cattle from both sexes. She is a maternal sister to our high selling bull in the 2021 On Target Sale. The dam is a former show female that has gone on to produce some great stock. Lashes 83E is good structured, dimensional, and a stellar uddered female that will stick around Cinder for the rest of her life. Biebird 483L embodies the same great qualities, I expect this one to excel any direction you take her in. Junior approved.

Long bodied, dark red, very attractive heifer from a tremendous young cow. The Jaguar sire group is one of the most consistent high-quality set of calves we have ever produced. 150G produced two herd bulls, one to a commercial customer and a standout going to RSL Red Angus and now this young sweetheart. When 155L was just 2 weeks old and we analyzed her and her paternal sisters we decided to flush her dam to produce full sibs. We are extremely excited as we await their arrival this calving season. She is a sweetheart and would be great for a junior.

Dark, cherry red, great haired, sweet fronted, very angular heifer that is super attractive and has made many friends already. Her dam has a very impressive production record and has proven to be a no miss cow. 178E's first calf was Redrich Gironomo a bull who was a herdsire for us that now resides at BMB Brewin Angus. We have retained all 3 of 178E's other calves: 174H just weaned a very good bull calf, her daughter 175J produced an outstanding Clooney son who will be a feature in our upcoming bull sale and is a 3/4 sib to 170L. The other maternal sister is 172K which is one of our very top bred heifers and a full sib to the tremendous 175L. We are so glad that Moose Creek Red Angus decided to share Clooney with the rest of the Red Angus World! His calves at Redrich are super calving ease, dark red and exceptional! Red Redrich Firefly 170L is an eye appealing beauty that you can hang a halter on and would make a great junior project.

Just look at that top line, frame and depth. She has been a standout since birth. She carries this all on a great set of feet and a great disposition. Here is a heifer you can throw a halter on and hit the show ring or put out to pasture and she will be a front end cow that will produce year after year just like her dam Superior Dam. Her Superior dam has worked well for us. We purchased semen on her sire Upload from RRUP a couple years ago and have used it on her dam only.

There's no better definition of 'proof in the pudding' than Sparkles 452L. Her dam LSCC 452E has been a great producer with one daughter working in herd, one for Oscar Gonzalez (Mexico) and our high selling bull this spring, King Pin 442K who resides at Highline Angus. 452L is a long bodied tanky heifer with a very gentle disposition. The Sparkles cow family came to us through a purchase from Redrich Farms and has proven itself to be very productive and full of longevity. Somehow the females always find their way to this sale and its no coincidence why. Sparkles 452L's story is just beginning; let her future shine bright for you. \*\*Parent Verified.

 RED WILBAR SERENGETTI 803C  
 LUCKY 7 LADY 52D

Watching 62L develop reminds me of how excited I was to hear Reba McEntire was taking Blake Shelton's place on The Voice. You know how good its going to be but you sit and wait in anticipation until the day finally comes. The Lady cow family has been bomb proof in our program in terms of producing tanky, structurally sound cattle with good feet and near perfect udders. Lady 62L is a blood red, fancy made heifer with a ton of presence. The maternal great-great-grand dam SKG 12W was purchased through the Tradition With A Vision sale and has left a lasting maternal legacy in our cowherd. The dam LSCC 62H is a moderate framed cow, blood red in colour who stands on a very good foot with a beautiful udder. Over the past few years, we have had great success using Mann Red Box 55C, so when his semen became limited, we thought we ought to give Red Bear a try to keep that Red Box influence and we've been very pleased with the results. If Red Bears' come on anything like the Red Box daughters, they are sure to develop into exceptional mama cows. The Lady's don't come to town often...opportunity knocks here! \*\*Parent verified.

# Rob Holowaychuk Memorial Fund

In 2018 the Northern Club decided to create this fund in memory of Rob Holowaychuk. Rob believed in the future of the Angus industry and no better way than giving back to the Juniors that support the Northern Sale. 3 awards per year will be drawn to the Juniors that purchased an animal at the previous Northern Select Sale and the value will be \$1000 per award and to be used for the 2023 Sale. This is open to all Junior Members who purchase an animal at the 2023 Northern Select Sale. The winners will be notified by OBI Livestock Ltd. The sales credit will be awarded over and above any Junior incentives that the winners may be eligible to receive.

**2019 Winners – Lane Fulks, Sarah Hodgetts, Tyler Schmidt**

**2020 Winners – Nash Hodgetts, Brookelyn Holt, Kaleigh Clark**

**2021 Winners – Ethan Yaremko, Jackie Schmidt, Neils Van Loon**

**(Sired by 2 different sires)**

MWC Rosebud 32Y is a cornerstone cow in our program and at the 2023 Northern Select Tour, the Rosebud females were sure found. They will be features at our Dispersal Sale this December. One last year we can be involved with the Northern Select Sale and we are very proud to offer this donation to the Rob Holowaychuk Memorial Fund.
