

PEDERSEN LIVESTOCK

Herd Reduction

October 27, 2025 - 1:00 Pm
Vermilion Livestock Exchange

Φ

**This is a new chapter,
not the end of our story.**

Welcome

Raised with Passion and Pride

Having a herd reduction wasn't a hard decision to make, we'd had the discussion as a family when Kurt had a trip to the hospital in early May that we were going to have to cut the herd back to more manageable numbers. Deciding who to sell has been the struggle and the reality of selling the animals that we have literally poured our blood, sweat & tears into over the last 18 years made it a lot harder. The cows we are selling are not culls, rest assured the culls went to the market on a different day. We kept partner cows, the kids' cows, some of the family favourites like show & 4-H cows or the golden oldies like, 63X, we had a great catch with embryos this year and most of those commercial cows carrying these are staying. Kurt & Quinn have slowly been growing our red herd and this year we finally had a 'bulls worth' so very few from the reds are selling. We let Shane & Mark pick the top end of the purebred May calvers and the rest we are keeping, because who doesn't want 2 calving seasons! So no worries, we aren't going anywhere, we're just getting the herd to where we can still function as an active family in 4-H, hockey, curling, riding and all the other activities while feeding/calving/weaning etc cows. Next year we hope to be back at our favourite sales with heifer calves on offer. 2026 and moving forward we will be selling only yearling bulls via private treaty. All the coming 2 year olds we normally have in the bull sale will sell in this sale.

As you go through the catalogue you will see many cows were turned in with the bull shortly after they were AI'd, we didn't intend to have a herd reduction this year, we have moved to TSU sampling every calf as it is born so this made sense to us at the time, so please note most of the offspring will need to be DNA'd.

A big thank you to the crew that got all the cattle in these pages hauled, clipped, pictured, videoed and weaned! We ended up picking literally the hottest week of the year but everyone showed up early each morning enthusiastic and quickly became a well-oiled machine! Thanks everyone for your hard work, you made a tough job an incredible experience for our whole family.

Thank you to everyone that has shown an interest in this sale; for all those attending in person & online; we thank you for the continued support of our family.

-Becky

Herd Reduction
October 27, 2025 - 1:00 pm
Vermilion Livestock Exchange

Please join us for a social at the
Pomeroy Inn & Suites Sun,
Oct 26 - 6pm

Offering: 112 Lots

36 - Jan-Feb Calving Cows
16 - Bred Heifers
20 - May Calving Pairs
2 - Recips
27 - Heifer Calves
11 - Long Yearling Bulls

When we were deciding which cow family should lead off the catalogue this one came to the top easily. These girls all go back to a cow Kurt purchased in Ontario 10 years ago. These girls all have a very fancy, feminine look and catch your eye every time. 13K and 263L were both shown as calves and did well wherever they went.

If you're looking for deep bodied, flashy looking, females this is the family for you. The Dark Duchess family is backed with power and prestige. The cows are deep and easy keeping and often like to strike a pose in the pasture. The set of twin sisters in this family (221L & 222L) are carbon copies of each other; out of Brooking Emerald these girls are sure to turn heads.

This Emerald heifer may be missing ears but thats all she's missing. She is a stout made heifer that is out PED 17J whom we sold in the Form and Function Sale in Lloydminster a few years ago to Cote Clement Farms & bought a half share back in. Who produces show heifers like it's nothing, this heifer has a cool coupon in her out of our new Blairswest bull.

SELLING OPEN READY TO FLUSH

If you have ever seen our stall at fall shows, chances are there was an Excalibur in the string. These girls bring show ring presence to every pen they walk into. Over the years we have sold many Excaliburs as they are always sought after at selection time. Lots of mass and substance to these gals. 53G is open and ready to be flushed to any bull of your choice, she has been flushed multiple times now we have embryos in the tank that you'll see on the ground in the coming years. This is one cow family you will not want to miss out on.

This is the biggest cow family in the sale, you will notice that no matter what age these girls are they are still sound; they have the structural integrity needed to climb our tall river hills. The Tibbie cow family has been used as 4-H heifers for many juniors which goes to show their pretty presence, and the docility.

This cow family may have a small selection selling but it is packed with solid genetics and proven work. Past donor, PED 2W, who was around until a few years ago is a mainstay in many of the females we are keeping. The Andee cow family has proven to be fertile, moderate framed cows that put their all into their calves; This year PED 306L weaned off one of the biggest bull calves in the pen. The Andee cow family is one of foundation families of our herd, going back to MJTA 503T whom Kurt purchased together with my Grandpa from the MJT sale in 2008 - she was called a 'Valentines Gift'.

The cows in this cow family are bigger frame cows that are structurally sound with good udders and feet. They are fertile cows that move from April calving to February with ease (Whether it was planned or not – be careful where you stick bulls for a few days). The females are feminine and smooth through their front end, which is just icing on the cake.

This is one group of heifers you want to discover. Their neck comes out of their shoulder nice and high and has that proud up headed look to them. They profile extremely nice from the side and most certainly do not disappoint walking away! The Undiscovered cow family have headlined many sales in the past and we feel these heifers could very well follow suit.

EXPOSED TO BLAIRSWEST BOERING PACIFIC 42M MAR 28-MAY 30 . DUE JAN

This is another young heifer who is fertile enough to jump up a few months to calve when its cold. If you like her then look at her mom, who is calving in May this year and has a sweet heifer who is going to follow in her big sister's footsteps. These Utopias are long spined while still having the overall power and performance we strive to build.

EXPOSED TO PEDERSEN
MALBORO 46M
APRIL 22-JUNE 2.
DUE FEB

If there is one cow family of ours that people know about it is the Mardi cow family. Females from this family have hit the show road many times and hopefully many more to come. The bred heifer is a half sibling to 5C, one of the last embryos out of 51Y, crossed with Executive Decision this is a female to get your hands on. The heifer calf is out of a 5C x National dam that we are super excited to watch grow into the great donor she is built to be.

Another small cow family that goes back to GGRR NW Lady Ann 10W we bought from Gord Rattray, whom Dad considered a mentor. These girls have some size and are massive in their rib shape and overall dimension that you see in a proven, working cows. They are pretty and make raising a calf look easy. This pair and half sib are an interesting set, they are all out of different sires but still posses the same traits of their mom that shine through in all the right ways.

This year we finally had enough reds for a full bull's worth, so very few are selling. In this group there is a solid group of heifer calf pairs. The twin heifer calves are out of the bred heifer we bought from Towaw Cattle Co. last year in Red Roundup, they are deep bodied, wide topped heifer calves, we are keeping their mother, but these two girls will make beautiful momma cows down the road. The red bred we have on offer was my 4-H heifer, she is a big bellied, moderate heifer, she's quiet but doesn't love the show life. This group may be small, but they aren't lacking quality.

May Calving

Cows

Our May calving group was started and grown out of necessity. As our Jan calving herd has grown our barn didn't quite keep up, add in a few years of having bull trouble and trying to branch into another market and that was our main reasons behind the May calvers. We preg check for the first time in late June and if cows are open then they are put out with a bull for 45 days for May calving. Half of these cows are bred to Ressler Endeavour, a bull we brought up from North Dakota, unfortunately, we didn't get him up here until June so all he bred were these girls before he ended the breeding season with a broken leg. So the cows bred to him are carrying some limited-edition offspring. Lots 63 - 77 sell as bred cows with a calf along side.

Here is your chance to get the last available Kingsman calves. These two cows were set up to be recipes for January calving and are vet safe to have stuck to the embryo. They may not be the prettiest cows, but they raise calves easily and wean them off at a good heavy weight. The embryos are out of our old donor cow 326B and Merit Kingsman. We just love the calves we got off him and hope you do to.

Long Yearling

Bulls

All of the critters were pictured in late August, and these bulls had been climbing hills and just eating native grass all summer, some of them were in their awkward growing stages and their pictures are as honest as they come. Some of the older bulls were used by us or customers to breed this year and they will be Trich tested when they are semen tested.

PED 23M pictured below is a bull we think an awful lot of & used him ourselves this past spring. Big hipped, muscular cow bull. Sired by Covert, a bull raised by our friends at Clement Cote Farms, who came from a Lady Ann mother, known for her moderate, broody build. Female maker right here.

This fella is a bit of an anomaly, his birth weight is no typo, we suspect he was a multiple, when we found his mom in the pasture, she was worked up and just had this one tiny calf, we quickly named Tiny Tim. His birth weight didn't hold him back, he caught up to the rest of the group by the time he was a year. A moderate, deep bodied Endurance son.

Our August born 'whoops'. Out of our old Mardi 51Y donor cow and our Bravo bull. This fella has the genetics to be a pretty cool bull once he fully matures. He should build some incredible females. Moderate, heifer bull.

Sale Terms and Conditions

TERMS OF SALE

The terms of the sale are cash or cheque, payable at the sale location. The right of property shall not pass until after settlement, no invoicing on buyers in attendance, unless previous arrangements have been made. All cattle will sell under the standard terms and conditions set forth by the Canadian Angus Association.

BIDDING

Every animal entering the sale ring will be sold to the highest bidder.

DISPUTES

In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision of all disputes is final.

ANNOUNCEMENTS

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to any such announcements.

BREEDER'S GUARANTEE & PREGNANCY INFORMATION

All serviceable age females will have been pregnancy examined by an accredited vet.

DNA TESTING

DNA testing of the offspring in these females is the responsibility of the new owner if there is a discrepancy. All animals selling are Parent Verified.

MATURE BULLS SELLING

The Long Yearling Bulls selling will have passed a semen test prior to the sale and the semen papers will be at the sale for insuring these bulls. These bulls will not be wintered by Pedersen Livestock they are responsibility of the buyer after the hammer falls.

CERTIFICATE OF REGISTRATION

Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry transfer will be furnished to the buyer after the full and final payment has been made.

TRUCKING

Please do bring your trailers to the sale as all cattle will be leaving the Auction Mart Sale Day, if unable to bring a trailer please make prior arrangements. We are happy to assist with transportation of animals to greater distances at the expense of the buyer.

LIABILITIES

All people attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur.

Thank you

From our whole family we would like sincerely thank all of those that have surrounded us and helped us since Kurt's first trip to the hospital, through his passing and the months that have followed. From planting our crops, fencing, working cattle, running kids/errands, being online support with breakdowns, helping calculate feed needed for winter, to the ladies who kept us fed, a huge thanks. Also thank you to all of those that contributed to the syndicates that purchased the kids 4-H steers, contributed to the trust fund set up for us or donated to the fundraisers in our honour. We thank you; each and every one so much.
